

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

First striking out the "Appropriations of fund of \$799,000 to be received from New Loan on account of Advances," set

forth on page twenty-five of the Estimates, and adding to the recommendations for current expenses the following items:

The Clerk read the following communication from the Attorney General in answer to a resolution from the Senate asking

him for an opinion with reference to the distribution of free steamship tickets among the legislators:

Honorable S. E. Kaiue, President of the Senate, Territory of Hawaii:

Dear Sir:—I have the honor to acknowledge receipt of a copy of a resolution, passed by your honorable body, dated May 9th, 1901, requesting my opinion as to whether the acceptance by members of the first-class passage tickets from steamship companies is or is not contrary to law.

Section 255 of the Penal Laws of 1897 provides that: "Whoever corruptly gives or promises to any executive, legislative or judicial officer, or to any master in chancery, juror, appraiser, referee, arbitrator or umpire, any gift, gratuity, service or benefit, with intent to influence his vote, judgment, proceeding or matter pending, or that may by law become or be brought before him in his capacity as aforesaid, shall be punished by imprisonment at hard labor not more than two years, or by fine not exceeding \$500."

Section 256 of the Penal Laws of 1897 provides that: "Every executive, legislative, judicial or civil officer, or any master in chancery, or any person acting or summoned as a juror, or any appraiser, referee, arbitrator or umpire, who corruptly accepts any gift, gratuity, beneficial service, or act or promise of either, under an agreement, or with an understanding that he shall in the exercise of any function in his capacity as aforesaid, vote, decide or act in any particular manner in any cause, question, proceeding or matter pending or that may by law come or be brought before him, shall be punished by imprisonment at hard labor not more than five years, or by fine not exceeding one thousand dollars."

If a steamship ticket is given corruptly for the purpose, either express or understood, of influencing legislation, it is an offence for which the giver of the ticket may be punished by imprisonment at hard labor not more than two years, or by fine not exceeding \$500. If such ticket is accepted corruptly, upon an understanding that its acceptance is to influence the legislator's vote, it is an offence for which he may be punished by imprisonment at hard labor not more than five years, or be fined not more than \$1,000. To constitute an offence under the law above quoted there must be a corrupt giving or acceptance; that is, it must be in the nature of a bribe.

I have the honor to be, sir, with great respect, very sincerely yours,

E. P. DOLE, Attorney General.

Senator C. Brown moved that the communication be accepted and placed on file. Seconded by Senator Achi and carried.

Senator Achi reported for the special committee appointed to see to the printing and translation of the message of the Governor as submitted to the Senate on the Second Day, to the effect that the English copies would be ready in the afternoon, while the Hawaiian copies would not be ready until the next day.

Senator J. Brown moved that the resolution of Senator Achi asking the Attorney General for an opinion with reference to the introduction of other bills than the appropriation Bill during the extra session be reconsidered. Seconded by Senator Nakapaahu.

The Clerk announced that the communication from the Senate embodying the resolution had already been sent to the Attorney General.

Honolulu, H. I., May 10, 1901.

Hon. S. E. Kaiue, President of the Senate, Territory of Hawaii:

Dear Sir:—I have the honor to acknowledge receipt of the resolution of your honorable body, dated May 9th, 1901, inquiring "whether the Legislature in this extra session can pass a loan bill or other bills, with or without appropriations, according to the provisions of the Organic Act, or not."

On account of the apparent certainty that the question would arise, I requested my assistant, Mr. J. J. Dunne, to investigate the law bearing upon the powers of the Legislature called in extra session for appropriations. I herewith send you a copy of Mr. Dunne's opinion. It is very able and thorough. I think his conclusions are correct.

The definition of appropriation, given in Webster's Dictionary and following in *Poll v. Dunn*, 80, Cal. 227, and other cases, is as follows: "An appropriation is the act of setting apart or assigning to a particular use or purpose in exclusion of all others; application to a special use or purpose, as of money to carry out some public object." "Appropriation as applicable to the general fund in the treasury is defined to be authority from the Legislature given at the proper time and in legal form to the proper officers to apply sums of money, out of that which may be in the treasury in a given year to special objects or demands against the state." *Ristine v. State*, 20 Ind. 338; *Stratton v. Green*, 45 Cal. 149; *State v. Lindsay*, 8 Wash. 120.

The essence of the Appropriation Bill is the provision for spending public moneys. The essence of a loan bill is the authority to borrow money. Although authority to spend may be of little effect without authority to borrow, it seems to me that these powers are so distinct that the latter is not included in the former.

I have the honor to be, Sir, with great respect, very sincerely yours,

E. P. DOLE, Attorney General.

Honolulu, T. H., May 14th, 1901.

Hon. S. E. Kaiue, President of the Senate, Territory of Hawaii:

Dear Sir:—Through you Geo. W. DeLong Post, No. 45, G. A. R., extends a cordial invitation to your honorable body to participate with them in the observance of Memorial Day, on the 30th inst.

Senator Baldwin reported as follows for the special com-

mittee appointed to investigate the condition of the Porto Rican laborers at the quarantine station:

Honolulu, May 15th, 1901.

Hon. S. E. Kaiue, President of the Senate:

Sir:—Your special committee appointed under the House Concurrent Resolution which called for a joint committee of the House and Senate to visit the quarantine station and investigate the condition of a lot of Porto Ricans that had just been landed from the S. S. Colon, beg leave to report that in company with the House committee we went yesterday to the wharf of Quarantine Island, but were not allowed by the Federal officer in charge to go to the quarantine buildings. We, however, saw most of the Porto Ricans on the quarantine wharf, as they embarked on the boats of the Kinau, which steamer was then nearly ready to start for Maui and Hawaii.

A portion of the Porto Ricans were shipped to Hawaii on the Mauna Loa in the forenoon, some were sent to plantations on Oahu, and a large number were shipped on the Kinau to Hawaii, leaving only a few at the quarantine station.

The general appearance of this lot of Porto Ricans was better than we anticipated, although they bore evidence of poor living in their own country, and your committee should say that about ten per cent of them were troubled with what the medical member of your committee, Dr. Russel, calls "tropical worms," a complaint which is more or less prevalent among the working classes here on these Islands. Dr. Russel also believed that two or three of the Porto Ricans had typhoid fever, but he could see no reason why they should be further retained on Quarantine Island, inasmuch as about nineteen days had elapsed since they left Porto Rico, provided the Board of Health could find no signs of infectious diseases among the immigrants, and further provided that their clothes and personal effects were thoroughly disinfected. In this opinion your committee concurred.

Your committee on investigation ascertained that the immigrants had been thoroughly examined and that under the supervision of Messrs. Charlock and McVeigh, officers in charge of the quarantine station, they had a thorough bath at Quarantine Island, and that their clothes and personal effects were thoroughly disinfected in the government disinfecting steam plant, a certificate to which effect from said officers is herewith attached.

The Porto Ricans appear to be a mixture of the Spanish race and the aboriginal inhabitants of Porto Rico, and are somewhat like the Portuguese, though as a rule not so robust. The

Porto Rican has no negro blood in his veins, although there were one or two part negroes in the lot.

There was quite a large percentage of children in the lot. These we believe will grow up in this country to be good citizens and industrious people.

The report of most of the managers of the plantations where the Porto Ricans have been employed that have been imported the last few months is that their physical condition has much improved since they arrived on the plantations, and although poor workmen at first, they are now as a rule giving good satisfaction.

In closing, your committee wish to reiterate that the Board of Health should, before allowing Porto Ricans to land here, exercise every precaution to prevent the introduction of small-pox or other infectious disease.

Respectfully submitted,

H. P. BALDWIN,
N. RUSSEL,
D. KALAUOKALANI.

Three of the Porto Ricans have pneumonia and have been taken to the Queen's Hospital.

Accompanying the report was the following.

Office of the Medical Officer in Command Marine Hospital Service, U. S. Quarantine Station,

Honolulu, H. T., May 15th, 1901.

An agent of the Board of Health was present.

[Signed] McVEIGH.

To Whom it May Concern:

This is to certify that the baggage of all passengers (Porto Ricans) landed at Quarantine ex S. S. Colon was disinfected by steam, all immigrants were given a hot bichloride bath, after bathing kimonos belonging to this station were furnished each passenger during the time that clothes worn on arrival were being disinfected by steam.

Trunks and other containers sprayed with 40 per cent formalin.

[Signed] JNO. D. McVEIGH.

That heretofore these guards have been paid out of the appropriation for military and been under that department. It is now proposed to put them under the police department.

Your committee consider, as there is always considerable coin in the Executive building and in the Supreme Court building, valuable records without proper vaults for their safe keeping, it is necessary that there should be reliable guards. EDGAR CAYPLESS,

Approved by the Senate:

S. E. KAIUE,

President of the Senate.

ELEVENTH DAY

Wednesday, May 22nd, 1901.

The Senate met, pursuant to adjournment, at 2 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Carter, Crabbe, Paris, Kanuha and Nakapaahu absent.

The Journal of the Tenth Day was read and, on motion of Senator Kaohi, seconded by Senator J. Brown, the translation was dispensed with and the same approved as read.

Senator Russel reported as follows for the minority of the Committee on Public Health and Education:

The President of the Senate:

Sir:—The minority of the Committee of Public Health and Education begs leave to report in regard to the items of public instruction referred to him, as follows:

The minority agrees with the rest of the members of said committee in regard to the item of \$600,000 as is in the bill as a pay roll for support of schools, the Department of Public Instruction having produced sufficient evidence of the necessity of a large margin for thirty or forty additional school teachers during the next biennial period; also for the pay of teachers during the next biennial period; also the pay of janitors and yardboys in larger schools.

The minority also agrees with the necessity of paying the Superintendent his back salary to April 1, 1901, in the amount of \$3,962.50.

As for the third item in the list, salary of four normal inspectors at \$6,000.00, total of \$24,000.00, and the last item of school agents, \$4,500.00, the minority recommends that this last item be stricken out and the offices of school agents be dispensed with and transferred upon normal inspectors, who, in my opinion, can do that work more satisfactorily and without any prejudice to their other duties. I also recommend that another normal inspector be allowed to the large Island of Hawaii, since that Island has the largest number of children scattered upon a very large area, and the services of one inspector never can be so effective as on the other Islands with a smaller number of children and smaller area. The minority recommends that the third item be read thus:

Salary of five Normal Inspectors and School Agents at \$6,000.00, \$30,000.00.

And that an additional item next to this be inserted, viz.:

Traveling expenses of five Normal Inspectors at \$1,000 each, \$5,000.00.

The minority further recommends that the item first should stand as already passed by the Senate, and that an additional new item of \$1,163.50 for the payment of back salaries due to teachers be inserted.

In respect to the items of the Reform School, the minority agrees with the other members of the committee.

Very respectfully,

N. RUSSEL.

Senator C. Brown moved that the report of the minority be filed to await the report of the majority. Seconded by Senator Kalauokalani and carried.

Senator Achi reported as follows for the majority of the same committee on the same matter:

Hon. S. E. Kaiue, President:

Sir:—Your Committee on Education, to whom several items were referred, respectfully report as follows:

First—Items 228 and 229, back salary of Superintendent from June 14, 1900, to July 1, 1901. Your committee found that the above officer did not draw any salary from June 14, 1900, as there is no salary of the office; the salary was drawn by the President of the Board of Education as Minister of Foreign Office before.

The Superintendent performed his duties as stated in the Organic Act, and we believe he ought to be paid a reasonable compensation for the services he rendered. We recommend that an amount be inserted in the Appropriation Bill as follows: Back salary of Superintendent from June 14, 1900, to April 1, 1901, \$3,962.50.

Second—Item 230, Salary of four Normal Inspectors at \$6,000.00, \$24,000.00, we found out as follows: One inspector for the Islands of Kauai and Niihau, 1,600 scholars, and the Island of Oahu, excluding the District of Honolulu, 1,000 scholars; one inspector for the Islands of Maui, Molokai and Lanai, 2,500 scholars; one inspector for the Island of Hawaii, 3,600 scholars; one inspector for the District of Honolulu, 3,000 scholars.

We believe, according to the statements made by the Superintendent and Secretary of the Board, that amounts asked for the inspectors are money well spent.

One of the inspectors (Mr. Buchet) who is in Honolulu, further makes a request that an allowance for expenses be allowed to them, but we leave that to the House to decide,

Third—Item 234, Pay Roll Support of Schools, \$600,000. We found out that out of the amount asked the salaries of teachers who are teaching now amount to \$532,780.00; for the next two years are to be paid. Also wages or salaries of yardmen, janitors and truant officers are to be paid. The Board also intends to employ thirty to forty more teachers in order that the new scholars may be taught; so we recommend that the amount of \$600,000 be passed.

Fourth—Item 235, Salaries of School Agents, \$4,500. This item was inserted in Appropriation Bills for several years past, and we believe the Board of Education must have a person in each district to look out for the interests of schools, and we believe the amount was being well spent before; and we recommend the amount be passed.

Fifth—Item 238. If the House will decide not to build a Reformatory School for Girls, the item 238 ought to be passed at \$2,400.00, and the items 239, 240 and 241 be stricken out. The item be passed as follows: Pay of Guards, Reformatory School, \$1,800.00.

In regard to salaries of teachers, the Superintendent stated to us that salaries are fixed according to the certificates given to teachers, the length of time they taught, the positions of several schools, the number of scholars in each school, and the efficiency of the scholars.

Respectfully submitted,

[Signed]

W. C. ACHI,
J. B. KAOHI,

Members of the Committee of Education.

Senator C. Brown moved the adoption of the majority report.

The chair announced a message from Acting Governor Cooper, as follows:

Message to the Legislature of the Territory of Hawaii:

In view of the opinion rendered by the Attorney General to the effect that Act 1 of the Session Laws of 1893, entitled "An Act to provide for public loans," is still in force and that bonds may be legally issued in accordance with the terms of said Act, and it also appearing from the statement of the Treasurer of the Territory that there still remain unissued bonds to the amount of \$799,000 authorized by said Act, I recommend the passage of an Appropriation Bill making special appropriations for the use of the Territory during the succeeding biennial period, out of any

moneys received by the Treasury from the loan authorized by Act 71 of the Session Laws of 1896, above referred to, and submit the following estimates, the items of which may be found in the schedule of estimates submitted by the Governor under date of May 8, 1901.

I recommend the transfer of these items from the Appropriation Bill for current expenses to the Appropriation Bill above referred to; the remaining items of the Governor's estimates to be passed in the Appropriation Bill for current expenses, with the exception of the item of \$7,000 for construction of roads in Puna, Hawaii, entitled "Twenty-one and one-half miles Volcano road to connect with railroad," which I recommend to be stricken out.

[Signed] HENRY E. COOPER,

Acting Governor.

To the President of the Senate:

The Ways and Means Committee, to whom was referred Items Nos. 154 and 155 of the Appropriation Bill, relating to the Bureau of Conveyances, begs to report as follows:

Item 154. Your committee visited the department and was referred by it to the Treasurer, who offers the following as a substitute, being a reduction of \$1,240.00:

One Clerk at \$100.00 per month.

One Clerk at \$75.00 per month.

One Clerk at \$60.00 per month.

Two Clerks at \$50.00 per month each.

Two Clerks at \$40.00 per month each.

We therefore recommend Item 154 to read as follows:

"Pay-roll-Indexer, Copyist and Clerks, \$9,960.00."

Item 155. "Pay-roll for revising indexes," the Treasurer states can be reduced to two clerks at \$50.00 per month, or \$2,400.00.

Your committee found that the index books up to the year 1876 are very much worn with time and use, and if these records are to be of any service to the public it is absolutely essential that

they be revised. The larger force employed the quicker the work can be done, but as in so many other cases, the public will have to be patient until the revenues are increased.

DAVID KANUHA,
G. R. CARTER,
H. P. BALDWIN.

May 22nd, 1901.

Senator Kalauokalani moved the adoption of the report. Seconded by Senator Kanuha and carried.

Senator Paris reported as follows for the Committee on Public Lands on a certain item in the Appropriation Bill:

Hon S. E. Kaiue, President of the Senate:

Sir:—Your committee on Public Lands, to whom was referred item in the Appropriation Bill of \$55,000.00 for pay of "Jailors, Guards and Lunas of Prisoners," would report as follows:

Your committee find that the present pay roll amounts to \$2,135.00 per month, divided as follows:

Oahu, \$1,385.00 per month. .

Hawaii, \$500.00 per month.

Maui, \$200.00 per month.

Kauai, \$50.00 per month.

Making for the two years, \$51,240.00.

The pay varies from \$100.00 to \$20.00 per month.

In most of the outside districts they do general police duty when there are no prisoners.

Your committee have interviewed the High Sheriff, who says he intends to make the pay of this class of officers more uniform. He also says that as most of our jails are poorly constructed, that with the increasing class of tough characters, he needs efficient officers, and should be left a margin for increase if necessary.

Your committee recommend that the item be changed to \$53,000.00.

J. D. PARIS,
JOHN T. BROWN,
L. NAKAPAAHU.

Senator Baldwin moved to adopt the report of the committee. Seconded by Senator J. Brown and carried.

Senator C. Brown reported as follows for the special committee on pay of police of Hawaii, Maui and Kauai:

To the Honorable S. E. Kaiue, President of the Senate:

Sir:—The special committee to whom was referred the following items in the Appropriation Bill,

Pay of Police, Hawaii, \$65,000.00.

Pay of Police, Maui, \$40,000.00.

Pay of Police, Kauai, \$25,000.00.

Beg leave to report as follows:

Your committee obtained from the Auditing Department a complete copy of the itemized pay roll for each of the above Islands for the month of April past, and also had the High Sheriff appear with the estimates made by him, and upon which estimates figures submitted by the Governor and set forth in the Appropriation Bill are based.

Upon an examination of the itemized pay roll it appears especially in the District of South Hilo, Island of Hawaii, and in Wailuku, Island of Maui, that the pay of the police officers is not at all uniform. The committee recommends to the High Sheriff that he instruct the Sheriffs of each Island to make the pay of the police as uniform as possible, taking into consideration the services required and the cost of living in each particular district. This committee, from the information obtained by them, cannot approve of the pay roll for the district of South Hilo. Among the items is pay of a humane officer as well as a health officer, as also that of a night patrol. The pay roll for the month of April also showed that there were in addition to the regular force of twenty-four members, sixteen special policemen in the district, who were receiving salaries ranging from \$3 to \$75 a month.

The pay of a humane and health officer or a night patrol, especially the latter, where the police are on duty during the night, we believe should not be paid by the police department.

The High Sheriff's estimates show that the sums asked for are necessary for the proper and efficient conduct of this department of the government, and your committee believes that, taking into consideration the progress and increase in population of the past, and believing that it will continue in the same ratio during the next biennial period, that the money asked for each of the Islands named and the pay of their police is as little as can be done with, and should any decrease be made that it will seriously interfere with and affect seriously the efficiency of this department.

Your committee therefor recommend that the item pass as in the bill.

Respectfully submitted,

C. BROWN,
J. T. BROWN,
WM. WHITE,
J. D. PARIS.

I agree with the above, except that I believe the sums asked for are too large.

DAVID KANUHA.

Senator Kalauokalani moved the following amendment:

"That the High Sheriff is hereby requested to make such reductions in the payment of the superior officers of the police department in the different Islands and apply such reductions towards the monthly pay of the policemen."

This amendment was seconded by Senator C. Brown and carried.

The report as amended was then adopted.

At 3:50 o'clock Senator White moved to adjourn until 2 o'clock on Friday. Seconded by Senator Kalauokalani and carried.

EDGAR CAYPLESS,
Clerk of the Senate.

Approved by the Senate:

S. E. KAIUE,

THIRTEENTH DAY

Friday, May 24th, 1901.

The Senate met, pursuant to adjournment, at 2 o'clock.

After prayer by the Chaplain the roll was called, showing Senators J. Brown, Kaohi and White absent.

The Journal of the Twelfth Day was read and, on motion of Senator Nakapaahu, seconded by Senator J. Brown, the reading in Hawaiian was dispensed with and the same approved as read.

Senator Paris reported as follows for the Public Lands Committee, to whom had been referred the items relating to the government tug:

Hon. S. E. Kaiue, President of the Senate:

Sir:—Your Committee on Public Lands, to whom was referred item for "Pay roll, steam tug," would report as follows:

Your committee find the pay roll as follows:

Captain, \$150.00 per month.

Mate, \$60.00 per month.

Engineer, \$150.00 per month.

Two deck hands, \$86.00 per month.

Two firemen, \$104.00 per month.

Total, \$550.00 per month.

Total, two years, \$13,200.00.

Your committee find to this is to be added the sum of \$20,000 for coal and other expenses, making the total expenses of the tug \$33,200.00 for the two years.

We also find that since the arrival of the "Fearless" the government tug has not been paying, but losing money as far as towage of vessels goes. The only saving to the government has been in the removal of garbage and carrying piles, etc., in the harbor.

This bill provides for a garbage crematory which, if built, will do away with the need of a tug for this work.

Your committee do not consider it is wise for the government to try and compete with private enterprise in the matter of towage of vessels.

We would therefore recommend that the appropriation be inserted for one year at the rate asked for, or until the garbage crematory is erected, and then the tug be dispensed with.

J. D. PARIS,
JOHN T. BROWN,
L. NAKAPAAHU.

Senator Russel moved that the item pass as in the bill. Seconded by Senator Carter.

Senator C. Brown moved the previous question. Seconded by Senator Kanuha and carried.

The chair put the question to adopt the report of the Public Lands Committee, which carried.

Senator Nakapaahu moved that the rules be suspended in order to read a resolution. Seconded by Senator J. Brown and carried.

to be printed in the English and Hawaiian languages, and to furnish each Senator with ten copies of each day thereof; and also to have such Journal bound with the Journal of the regular session heretofore ordered by resolution.

L. NAKAPAAHU.

Senator Kalauokalani moved that the resolution be indefinitely postponed. Seconded by Senator J. Brown and carried.

FIFTEENTH DAY

Monday, May 27th, 1901.

Senate met, pursuant to adjournment, at 2 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Baldwin, C. Brown, J. Brown, Carter, Kahilina, Paris and White absent.

The Journal of the previous day was read and, on motion of Senator Kaohi, seconded by Senator J. Brown, the reading in Hawaiian was dispensed with and the same approved as read.

Senator Achi presented the following report of the Committee on Public Health and Education on certain items referred to it:

HON. S. E. KAIUE, President.

Sir:—Your Committee on Board of Health to whom several items in regard to Board of Health Department were referred, respectfully report as follows:

1st. Item 296. Salary of President of Board of Health, \$7,000.00.

As there is no provision having been made by the Legislature creating as a salaried position we recommend that the item be stricken out.

2nd. Item 297. Salary Executive Officer, \$5,400.00.

We found that by combining the items 297 and 340.

Salary for Purchasing Agent, \$4,000.00.

The Government will save, \$3,400.00, and the Board consenting to said charge. We recommend that the item may be inserted as follows:

297. Salary of Executive Officer and Purchasing Agent, \$6,000.00; and the item 340 may be stricken out.

3rd. Item 298. Salary of Secretary, \$4,000.00.

At a meeting held between the members of the Board and your Committee it was found out that the work of the Secretary is increasing instead of decreasing, we see no reason why said salary should be decreased, we recommend that the amount be passed.

4th. Salary of City Sanitary Officer, \$4,200.00.

We found out that this is a necessary officer in order to keep the city clean, and the work of said officer is a hard and arduous one. We recommend that the item may be passed.

5th. Item 300. Salary of Food Commissioner and Analyst, \$4,200.00.

For the same statement as the item 299, we recommend that the item may be passed as in the bill.

6th. Items 302 to 324, inclusive in regard to salaries of Physicians, we found out that the work of Physicians are:

1st: They treat the poor people without pay.

2nd: They visit schools and vaccinate the scholars.

3rd: They are required to keep records of births and deaths,

4th: They make post mortems if required by the Government.

5th: They are Agents of the Board of Health.

6th: They examine lepers and also attend to suspects in their respective districts.

We therefore do not believe in striking out the items for Physicians; we believe they are useful to the Government, and the public money is well spent in paying the Physicians.

We recommend the several items may be passed, with the exception of items 303 and 304 for Koloa and Lihue, Kauai, at \$1,440.00 each, those items may be inserted as follows:

Koloa and Lihue, Kauai, at \$2,400.00.

The Government saves \$480 by doing that way, and the Board agrees to it.

Also Waialua, Oahu, may be changed to \$960.00.

There is a big plantation there now which will give the Physician an ample practice to make a good living income.

Also item 311. Molokai, \$1,440.00; may be changed to \$2,400.00.

The Board states that in order to get a Physician to take the place his salary must be raised to \$2,400.00, otherwise the Board would not get any one to take the place, as there is no plantation there now.

Also item 312, Lahaina, Maui, \$2,160.00.

The Board states it may be decreased to 1,800.00.

Also item 314, Kihei, Maui, \$1,800.00.

It may be changed to \$1,440.00.

Also item 319, North Hilo, Hawaii, \$1,800.00.

It may be changed to \$1,440.00.

Also item 320, Hilo, Hawaii, \$1,200.00.

It ought to be changed to read as follows:

Hilo and Olaa, Hawaii, \$1,800.00.

Also item South Kona, Hawaii, \$1,560.00.

It may be changed to \$1,440.00.

Also item North Kona, Hawaii, \$1,560.00.

It may be changed to \$1,440.00.

7th. Item 326. Bacteriologist and Pathologist, \$4,800.00.

The above officer makes post mortems averaging between 15 and 20 a month, also he attends the Kalihi Stations, and he also performs other things if required. We believe he earns the salary asked for him.

We recommend that the item may be passed.

8th. Item 327. Meat Inspector and Veterinary, \$4,800.00.

The Board states in its report to the Treasury, the amount of work and responsibility of the office does not justify so high

a salary. The salary is \$175 on condition that the incumbent furnish his own stock man.

We recommend that the amount may be inserted at \$4,-200.00 as recommended by the Board.

We also recommend an item as follows:

Expenses for Veterinary Surgeons in place of item 182, \$1,-200.00.

9th. Item 328. Registrar Deaths, etc., \$2,400.00.

The Board urged that the amount may be inserted, \$3,-000.00, and states that the duties of the office are diversified and arduous and the hours long, but we do not believe that the condition of the Treasury of the Territory warrants the increase.

We recommend that the amount may be passed as in the bill.

10th. Items 329 and 330.

The difference of salaries between two set of inspectors is \$200; we don't believe in allowing a big difference between the salaries of officers performing the same duties.

We recommend the items to be read as follows:

329. Three Inspectors at \$2,160.00, \$6,480.00.

330. Three Inspectors at \$1,920.00, \$5,760.00.

So the Government saves about \$720.00.

11th. Item 331. Milk Inspector, \$1,800.00.

Item 332. Fish Inspector, \$1,440.00.

Item 333. Assistant Fish Inspector, \$960.00.

They are necessary officers and we recommend that said items may be passed as in the bill.

334. Stockman. We recommend the item to be stricken out for reasons as more fully states in item 327.

12th. Item 335. Assistant Clerk, \$1,200.00.

Item 338. Janitor and Messenger, \$720.00.

The duties of said officers may be combined in one and the item may be inserted.

Assistant Clerk, Janitor and Messenger, \$1,680.00.

Saving an amount of \$240.00.

13th. Item 336. Stenographer, \$1,920.00.

Item 337. Morgue Attendant, \$1,200.00.

Item 339. Officer for Registered women, \$960.00.

We found that the above officers are necessary ones.

We recommend that the items may be passed as in the bill.

14th. Item 341. Non-leperous Children, \$2,400.00.

The Payroll is as follows:

Three Sisters at \$20, \$60.00.

Two Servants at \$14, \$28.00.

One Maid at \$4, \$4.00.

Monthly expenses, \$92.00.

There is a margin of \$8 a month, but we recommend to pass the item as in the bill.

15th. Item 342. Inspector of Plumbing, \$3,600.00.

Item 343. Assistant Inspector of Plumbing, \$2,400.00.

The above items and item 172 salary of Superintendent of sewers, \$3,000.00 which amount to \$9,000.00; may be inserted as follows:

Inspector of Plumbing and Superintendent of Sewers, \$4,200.00.

Assistant, \$3,000.00.

By doing that way the Government will save in two years \$1,800.00.

16th. Removing Garbage, \$24,240.00.

According to the new recommendation of the Board, that Department could be run with men as follows:

Two Foremen at \$55, \$110.00.

Seventeen Rubbish Tenders at \$35, \$595.00.

Two Dry-earth Closet Tenders at \$40, \$80.00.

Total per month, \$785.00.

We recommend the item to pass at \$18,840.00.

So the Government saves \$5,400.00.

17th. Item 345. Operating Excavator, \$45,000.00.

In examining the report of the President, page 57, and his new recommendation and after consulting the Board, we recommend that the item may be passed as in the bill.

18th. Item 346. Segregation of Lepers, \$62,400.00.

The salaries of officers may be found on page 57.

Report President Board of Health.

We believe the following salaries may be cut as follows for the reason that their food and lodging are furnished by the Government:

Superintendent, \$200.00.

Assistant, \$75.00.

Clerk to Assistant Superintendent, \$40.00.

Manager Store, \$50.00.

We recommend that the item may be passed at \$60,720.

A saving in two years of \$1,680.00.

19th. Item 347. Maintenance of Hospital, \$4,200.00.

The amount is spent as follows:

Dispenser Honolulu \$75 per month, \$1,800.00.

Nurse, Honolulu, \$60 per month, \$1,440.00.

Koloa Hospital Nurse \$40 per month, \$960.00.

The Koloa Hospital Nurse is not required to attend at all times, the Board is willing to insert the Koloa Hospital Nurse at \$25 per month or \$600 for two years.

We recommend that the item may be passed at \$3,840.00; a saving of \$360 in two years.

20th. Item 348. Superintendent and Assistants Insane Asylum, \$30,888.00.

By combining the items for Medical Superintendent and Superintendent in one will effect a saving of \$75 per month. The object of combining the above items is to provide a salary for a resident Physician at \$200 per month who will be at the same time Superintendent, which amount together with Board and lodging free would offer a sufficient consideration to a good man.

The salaries of other officers are cut a little as more fully appears in the new recommendation of the President of the Board.

We recommend that the item may be passed at \$25,584.00.

A saving in two years of \$5,304 or \$221 per month.

Hoping that the Senate will approve the above report.

Respectfully submitted, I do not concur,

N. RUSSEL,

Chairman.

SIXTEENTH DAY

Wednesday, May 29th, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain the roll was called, showing Senators Achi, Baldwin, Crabbe, Carter, Russel and White absent.

The Journal of the Fifteenth Day was read and, on motion of Senator Kalauokalani, seconded by Senator J. Brown, the reading in Hawaiian was dispensed with and the same approved as read.

The Clerk read the following communication from the Acting Governor:

Hon S. E. Kaiue, President of the Senate:

Sir:—I have the honor to acknowledge the receipt of the copy of resolution passed by the Senate on May 23, 1901, wherein it is requested "that the Governor submit to the Senate all names of appointees other than those already submitted that the Organic Act requires the Governor to submit to the Senate for confirmation."

In reply thereto I have to say that I am not aware of any appointments made by the Governor which require the confirmation of the Senate that have not already been submitted.

Very respectfully yours,

HENRY E. COOPER,
Acting Governor.

Edgar Cayless, Esq., Clerk of the Senate:

Sir:—I acknowledge the receipt of your letter of May 23rd,

in which you submit the action of the Senate upon the appointments submitted by the message of the 13th inst.

Very respectfully yours,

HENRY E. COOPER,
Acting Governor.

Senator Kanuha moved that the communication be received and filed.

The chair so ordered it.

Senator Paris reported as follows for the Committee on Public Lands on certain items in the Appropriation Bill:

Your committee on Public Lands, to whom was referred Items 180, 183, 186, and 187, of the Appropriation Bill, would report as follows:

Your committee finds that Item 180, "Pay Roll Electric Light, \$12,600.00."

This is the same amount as appropriated for the last biennial period, divided as follows: Inspector, \$150 per month; 1 Dynamo man, \$80 per month; 1 Dynamo man, \$65 per month; 1 Lineman, \$65 per month; 2 Trimmers, \$55 each per month; 1 Station man, \$55 per month. Total, \$525 per month.

We have interviewed the Superintendent of Public Works and the Inspector, and find that there are 135 street lights and 800 incandescent lights furnished to the prison, insane asylum and other government buildings. We also find that with an outlay of \$8,000 for extra machinery, wires, etc., the lights for the city could be increased about one-third.

As the city is poorly lighted, your committee feel that this should be done, if we had the money.

Your committee recommend the item pass as in the bill, if we had the money.

Item 183. "Pay Roll Lighthouse Keepers, \$9,459."

We find divided as follows:

Hawaii—

Laupahoe, \$10.00 per month.

Kawaihae, \$10.00 per month.

Mahukona, \$12.50 per month.

Paukaa, \$15.00 per month.

Makahalanaloa, \$15.00 per month.

Kahala Point, \$15.00 per month.

Maui—

Maalaea, \$10 per month.
 Makena, \$20.00 per month.
 Lahaina, \$8.00 per month.

Molokai—

Kaunakakai, \$20.00 per month.
 Kale o Ka Laau, \$75.00 per month.

Oahu—

Barber's Point, \$25.00 per month.
 Honolulu, \$75.00 per month.
 Diamond Head, \$75.00 per month.

Kauai—

Nawiliwili, \$20.00 per month.

Your committee feel that this is for public safety, and most of the salaries are small. The Superintendent of Public Works says that they expect that this will later on be taken over by the Federal Government. We recommend that this item pass.

Items 186 and 187, "Pay of Gunpowder Keepers, Hilo and Honolulu."

Your committee find that this is fair and would recommend the item pass.

Items 192, 193, 194, 195, 196, 197, 198 and 199.

Your committee find that most of these items are the same as for last biennial period.

The pay for reservoir keepers has not been all expended, but will be needed when the Diamond Head reservoir is ready. The pay for shipping tenders has been increased, but the Department claims the work requires it.

We would recommend these items pass as in the bill.

J. D. PARIS,
 J. T. BROWN,
 L. NAKAPAAHU.

Senator J. Brown moved that the report be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Kalauokalani and carried.

At 10:20 o'clock Senator J. Brown moved to adjourn until 10 o'clock on Friday. Seconded by Senator Kaohi and carried.

EDGAR CAYPLESS,

Clerk of the Senate.

Approved by the Senate:

S. E. KAIUE,

President of the Senate.

SEVENTEENTH DAY

Friday, May 31st, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain the roll was called, showing Senators Achi, C. Brown, Crabbe and White absent.

The Journal of the Sixteenth Day was read and, on motion of Senator J. Brown, seconded by Senator Nakapaahu, the reading in Hawaiian was dispensed with and the same approved as read.

Senator Baldwin moved that the rules be suspended in order to allow him to read a petition. Seconded by Senator Kalauokalani and carried.

Senator Baldwin then read the following petition:

To the Honorable the President and Senators of the Senate:

I beg to petition your honorable body for favorable consideration in the matter of representation of your Territory at the South Carolina Inter-State and West Indian Exposition to be held at Charleston, S. C., from December 1st, 1901, to June 1st, 1902.

The trunk lines of railway running south from Buffalo have kindly proffered to transport government and state exhibits from the Pan-American to the Charleston Exposition without cost. This will reduce the expense of your representation to a minimum, and also reduce very materially the cost of returning your exhibit home, as it can be returned by vessel the entire distance, or by rail at a lesser distance than from Buffalo.

I am pleased to hand you herewith printed matter indicating the scope, progress, etc., of our exposition, and ever pray the granting of this petition.

With highest consideration, your petitioner,

[Signed] J. F. KNAPP.

Special Commissioner South Carolina Inter-State and West Indian Exposition.

Senator Baldwin moved that this petition be referred to the Committee on Public Health and Education. Seconded by Senator Kalauokalani and carried.

Senator Carter reported for the Ways and Means Committee on various items in the Appropriation Bill, as follows:

The Ways and Means Committee, to whom were referred sundry items in the Appropriation Bill under Current Expenses,

Department of the Secretary of the Territory, begs to report as follows :

Item 372, Incidentals, \$3,000.00.

Your committee finds this item is the same as has been provided in past appropriation bills and that it has always been expended. The office work of this department has increased since annexation, and the incidental will also be larger. We recommend the item pass as in the bill.

Item 373, State Entertainments and Ceremonies, \$3,000.00.

Your committee finds that this is an item which has seldom been drawn in full. Should President McKinley or any other government official, or any foreign official, such as the Duke of Cornwall, call here, it is a fund that could be used for such purposes. The committee recommends that it pass.

Item 374, Preservation of Archives, \$3,000.00.

This item was first introduced in 1898. Since that time this department had gathered together all the correspondence as far back as 1850, and have had it re-copied and bound. The committee believes it wise to allow this work to be completed. All the documents connected with the Legislature can be rearranged and filed for easy reference. If this data is of sufficient historical importance to warrant its preservation, and if the records of the people of Hawaii are to be preserved, in addition to the foregoing, provision should be made for a fire-proof vault. This could be accomplished without great expense, as the treasury vault provides a foundation, and it only requires to be built up from the floor to the ceiling. Your committee therefore recommends the passage of Item 374 as in the bill, and an item be inserted as follows :

374a. Fire Proof Vault, \$2,500.00.

Item 375, Expenses of Election, \$15,000.00.

This item was formerly under the Interior Department and represents about what it costs to provide booths and judges in all the precincts and districts. We therefore recommend that it pass as in the bill.

Item 376, Printing and Advertising, \$1,800.00.

The committee finds this department is expected to print all the laws, many public notices and proclamations. We recommend that the item pass as in the bill.

Item 377, Compiling and Revising Laws, \$8,000.00.

Your committee recommends that the item be stricken from the bill.

Respectfully submitted,

DAVID KANUHA,
H. P. BALDWIN,
G. R. CARTER.

Doubtful about Item 374a.

H. P. BALDWIN.

Senator Kalauokalani moved that this report be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Baldwin and carried.

Senator Carter reported further for the same committee on various items in the Appropriation Bill, as follows:

To the President of the Senate:

The Ways and Means Committee to whom were referred sundry items in the Appropriation Bill under the Treasury Department, begs to report as follows:

Item 150, Salary of the commission, deputy, assessors and collectors, \$95,000.00.

Your committee finds that this item covers the salaries of two deputy assessors for Honolulu and commissions varying from 2 1-2 to 5 per cent on amounts collected by tax assessors in country districts.

This department expended last year under this head \$41,-474.25, and as this year the taxes are expected to be larger, it will necessitate a large amount being paid in commissions.

But as the system of collecting the taxes is so different, we recommend a division, putting under "Salaries and Pay Rolls" the cost of collecting the Honolulu taxes, and under "Current Expenses" the amount necessary to cover the commissions paid for collecting the taxes in outlying districts.

Heretofore, in Honolulu, the office force consisted of two deputy assessors, who, with the assessor, were expected to do the work between March 1st and July 1st, covering the district from Moanalua to Koko Head and from the mountains to the sea. These three men were expected to visit every piece of property, place a value on the same and its improvements, and at the same time keep track of all other personal property, poll, dog, carriage, cart and dray tax, and have the assessment books made up during the same time.

In addition to the foregoing the Tax Assessor's office will, of necessity, this year have charge of the collection of the income

tax, and your committee believe that the Legislature should make ample provision for a sufficient force to put this tax into operation, effectively.

Another great difficulty that this office has contended with is its inability to secure the area of various properties, as well as the names of the owners. The block maps of each district, commencing with Honolulu, are now being prepared by the survey department, giving the owner of each piece, street frontage and the area in square feet; but it will take a long time to finish this work, and your committee suggests that the Tax Assessor be given a draughtsman, whom he can direct to obtain the area of particular properties from time to time, and who can be kept busy in copying and making the maps that are wanted at intervals without delay.

If the Legislature desires this department to be more effective and a larger revenue obtained, your committee recommends the striking out of Item 150 and inserting the following:

150a. Pay of Deputy Assessors:

Honolulu, one at \$4,000 and four at \$3,600, \$18,400.00.

Pay of deputy assessors, income tax, Honolulu, \$3,600.00.

Pay of income tax clerks, \$6,000.00.

Pay of tax office draughtsman, \$2,400.00.

Pay of Clerks, Honolulu office, \$9,600.00.

Total, \$40,000.00.

And further items under current expenses, Treasury Department:

416a. Commissions of deputy assessors for districts other than Honolulu, \$70,000.00.

Commissions for deputy assessors, income tax, other than Honolulu, \$25,000.00.

DAVID KANUHA,
H. P. BALDWIN,
G. R. CARTER.

May 31st, 1901.

Senator Achi moved that the report be laid on the table, to be considered with the Appropriation Bill. Seconded by Senator J. Brown and carried.

Senator Carter reported further for the same committee on various items in the Appropriation Bill, as follows:

To the President of the Senate:

The Ways and Means Committee, to whom were referred sundry items in the appropriation bill under Department of Public Works, beg to report as follows:

Item 171. Salary of Clerk, \$2,400.00.

Your committee finds this is intended for the clerk to the Assistant Superintendent, a very important and necessary position. We therefore recommend this item should pass as follows: Salary of clerk to the Assistant Superintendent, \$2,400.00.

Item 172. Salary of Superintendent of Sewers, \$3,000.00.

The committee finds the Superintendent of Sewers is supposed to make a daily inspection of the entire system, from Liliha street to Punahou and from Beretania street to the sea, to inspect all connections and see that they are properly made, and have general supervision of the entire sewerage system, so that whenever a leak or break occurs a saving can be made by promptly repairing the same.

The committee finds that under the Board of Health two plumbing inspectors are employed, one at \$3,600 and the other at \$2,400, whose duties also require them to inspect all connections and see that they are properly made.

Therefore your committee does not see the necessity of two departments providing for the same work, and believes economy could be obtained by making the Board of Health inspect the connections of the sewers, and reducing the salary of the Superintendent of Sewers to \$2,400. We recommend: Salary of Superintendent of Sewers, \$2,400.00.

Item 173, Sewer Pay Roll, \$5,520.00.

Your committee finds that this item covers only such assistance as is now being used; that is, one engineer, a fireman and a messenger boy. This will be entirely inadequate for the system when the 4,000 connections, that are to be made as rapidly as possible, are finished and the system in full operation.

This Legislature must make provision for increased service in this department, and a careful estimate of its needs when in full running order is as follows, per month:

Engineer (day shift)	\$ 125.00
Engineer (night shift)	100.00
Two firemen (\$60 each)	120.00
Three assistant inspectors	195.00
Coal, oil and waste	700.00
Repairs and incidentals	100.00

Total \$1,340.00

This will provide for the care of property that already represents a value of \$400,000, and will cover not only the entire present system but the extension proposed.

The committee therefore recommends that under Current Expenses, Department of Public Works, the following be inserted:

440a. Running expenses of sewerage system, \$32,160.00.

Item 177, Pay Roll, Waiakamilo Camp, \$3,360.00.

Your committee finds that the government has on its hands a complete quarantine station outfit at Kalihi of the value of over \$100,000, on leased ground, for which a ten-year lease was made at \$50 a month. Should another epidemic occur this property would be invaluable. It therefore should be cared for and kept in repair, in such a manner as to be subject to immediate use. The Superintendent of Public Works has therefore considered it expedient to rent the rooms from month to month at a very low rental to the poorer classes, by this method securing a revenue sufficient to more than cover the outlay requested.

Your committee believing that this is a time when every possible economy must be put into operation, suggests that the Superintendent of Public Works offer to lease this property at public auction to the highest bidder, with a condition requiring the tenant to keep the grounds in order, the buildings and fences in good repair, to pay the ground rent, and to surrender the same upon ten days' notice from the President of the Board of Health. By this manner it is believed a larger revenue can be obtained than at present, without any outlay on the part of the government.

Item 210, Pay Roll, Government Buildings, \$6,000.00.

Your committee finds that this is for the pay of eleven yardmen at \$22.50 per month, who have charge of the grounds of the Judiciary and Executive buildings. This is small pay, and there is considerable work to be done, and we recommend that the item pass as in the bill.

Item 211, Salary of keeper of Mausoleum grounds, \$32.50 per month.

Your committee finds that this item of \$32.50 per month is to a resident keeper at the Mausoleum, and as there are men provided for the care of the grounds, we recommend that the item be stricken out.

Item 212, Salary of janitor and keeper of Capitol and Judiciary grounds and buildings, \$2,400.00. Your committee finds that this is an item of \$100 a month for the head janitor and gardner of the buildings and grounds mentioned. We recommend that the item pass as in the bill.

H. P. BALDWIN,
G. R. CARTER.

I do not concur for the sewer system.

DAVID KANUHA.

Senator J. Brown moved that the report be laid on the table, to be considered with the Appropriation Bill. Seconded by Senator White and carried.

Senator Achi reported as follows for the Committee on Public Health and Education, on various items in the Appropriation Bill.

Hon. S. E. Kaiue, President. Sir:

Your Committee on the Board of Health Department to whom several items were referred respectfully report as follows:

1. Item 532. General Expenses, \$10,000.00.

Upon consultation with the Board we came to the conclusion that the above amount ought to be raised to \$13,000.00.

The expenses to be paid out of the above appropriation are Advertising and Printing, Incidentals, Stationary and Postage, Laboratory Supplies, and Burial of Paupers and Morgue expenses.

We also found out that the expenses for advertising is continually increasing with the growth of the duties of the Board; the same way with the expenses for incidentals.

In regard to expenses for burial of paupers and morgue, we found out that the number of bodies which have to be buried at the expense of the Board is increasing greatly.

We therefore recommend that the item may be passed at \$13,000.00.

2. Item 533. Medicine for City Dispensary, \$2,000.00.

The idea of a former President of the Board was that the Government Physicians in different districts should supply drugs and medicines, to be used in their respective districts out of their own expenses; but the Board informed your committee that they found it impracticable; and we concur with the opinion of the Board in that matter; we believe it would be impossible for the government physicians to furnish drugs and medicine out of their nominal salaries.

We therefore recommend that the amount may be passed as follows:

Medicines, \$9,000.00.

Being the same as inserted in last Appropriation Bill.

3. Item 534. Support of Non-leprous Children, \$12,000.

The Board strongly urged your committee to increase the amount to \$20,000.00 for the reason that the board believe that a building for boys ought to be built at Kalihi.

We therefore recommend that the item may be inserted as follows:

Support of non-Leprous Children and buildings for boys, \$20,000.00.

4. Item 535. Insane Asylum, \$34,000.00.

The above amount is supposed to be spent as follows:

Bedding, furniture, etc., \$1,000.00.

Crockery and utensils, \$1,000.00.

Fuel and lights, \$1,000.00.

Improvements and repairs, \$2,000.00.

Incidentals, \$2,000.00.

Medicines, \$2,000.00.

Beef, meat and fresh fish, \$12,000.00.

Provisions and Groceries, \$13,000.00.

Total, \$34,000.00.

Through our conversation with the members of the Board, we are satisfied that the above amount can be made to last out only with strictest economy on the part of the officers of the Institution.

We therefore recommend that the amount may be passed as in the bill.

5. Item 536. Segregation support and treatment of Lepers, \$160,000.00.

By the report of the committee to Kalaupapa, which was adopted by both Houses, it was decided to increase the rations of Poi from 21 lbs. to 25 lbs. a person a week; also increase in other things were adopted; and we believe we also decided to furnish the inmates with fuel free of charge; the Board proposes to your committee an increase of \$10,000.00 in the Appropriation in order to meet said expenses; your committee also found that the Kalaupapa committee proposed that the management, etc., of the Bishop Home ought to be better provided with helpers and other things.

Your committee therefore recommend that the item may be passed at \$171,000.00.

It is true that the Treasury does not warrant an increase in the Appropriation Bill; but we feel it is our duty to do all in our power for the benefit of those unfortunate inmates at Kalaupapa and Kalawao, Molokai.

6. Item 537. Kalaupapa Store, \$45,000.00.

In regard to the above amount we have no reason to change the same, and recommend that it may be passed as in the bill.

7. Item 538. Maintenance of Garbage and Excavator Service, \$24,000.00.

The Board urged your committee to increase the amount to \$26,000.00.

But we believe the Board can run that Department during the next two years with the strictest economy, for the amount asked in the bill; and we claim it is a part of our duty to save all we can for the government.

We therefore recommend the amount asked in the bill may be passed.

8. Item 539. Running Expenses of Garbage Crematory \$7,200.00.

The Board wants the above Appropriation be changed to Superintendent of Public Works, but we believe it will only amount to more trouble on said officer, as he has all he can attend to.

We recommend that the amount may be passed as in the bill.

9. Item 540. Honolulu Dispensary, \$1,000.00.

The Board believes that this institution could be run with only \$500 during the next two years.

We therefore recommend the item to be passed at \$500.

10. Item 541. Koloa Hosptal, \$1,000.00.

This Hosptal is not transferred to Trustees, and belongs to the Government.

We recommend that the item may be passed as in the bill.

11. Items 542 to 549 inclusive.

Subsidies to different Hosptals.

We ask that the above amounts may be laid over until we get an opinion from the Attorney General in regard to a Resolution passed by this Senate on May 27, 1901, in regard to the subsidy to the Queen's Hosptal.

Respectfully submitted,

W. C. ACHI,

J. B. KAOHI,

Do not concur in lines 2, 5, 7, 8, 9, 11.

N. RUSSEL.

Members of the Committee on Health.

May 27th, 1901.

Senator J. Brown moved that the report be laid on the table to be considered with the Appropriation Bill. Seconded by Senator Kalauokalani and carried.

Senator Baldwin moved that the Committee on Public Lands and Agriculture and Forestry be instructed to visit the Government Nursery and such other places connected with the work thereof as it might be thought necessary and to re-

port back to the Senate. Seconded by Senator Kalauokalani and carried.

The clerk read the following communication from the Attorney General relative to a legislative appropriation for the Queen's Hospital:

"I have the honor to acknowledge receipt of the following resolution:

Resolved, That the Attorney General is hereby requested to inform this House whether we can appropriate money to aid the Queen's Hospital, or other institutions or not.

I have examined the charter, by-laws and regulations of the Queen's Hospital. The charter is drawn on the broadest and most liberal lines. It is not obnoxious to the provision in the Organic Act, prohibiting appropriations of public moneys for sectarian purposes. It is maintained "for the relief of indigent, sick and disabled people" of the Hawaiian kingdom, as well as of such foreigners and others as may desire to avail themselves of its benefits. It is one of the classes of institutions for the erection of which the Territory under section 55 of the Organic Act is especially authorized to incur indebtedness. I think that the Legislature has power to make an appropriation in aid of this charity.

The answer to the question asked me as to whether the Legislature has power to aid other institutions, depends upon the nature of the institution.

I am, very respectfully yours,

E. P. DOLE, Attorney General.

Senator Baldwin moved that the communication be referred to the Committee on Health. Seconded by Senator Kalauokalani and carried.

Senator Kanuha reported as follows for the majority of the Military Committee on certain items in the Appropriation Bill:

The majority of your committee on Military recommend that the whole items on page 22, from 360 to 364, and the whole items on page 33, from 564 to 568 be stricken out.

DAVID KANUHA,

I. H. KAHILINA.

Senator Kalauokalani moved that the report be laid on the table to be considered with the report of the minority.

Senator Kanuha reported further for the same committee on certain items in the Appropriation Bill, as follows:

The majority of your committee on Military recommend that the whole items from 350 to 359, on page 21, and whole items from 352 to 363, on pages 32 and 33 be stricken out, except the item 356, on page 21, about the Janitor. Your committee recommend to pass as it is in the bill, to take charge of the military equipment.

DAVID KANUHA.

I. H. KAHILINA.

Senator White moved that the report be laid on the table to be considered with the report of the minority. Seconded by Senator Nakapaahu and carried.

Senator Carter moved that the rules be suspended in order to allow him to, read a communication from the Secretary of the Board of Health. There being no objection, the request was granted.

Senator Carter then read the following communication:

May 13, 1901

Hon. George R. Carter, Chairman Senate Committee on Public Expenditures.

Sir:—I have the honor to hand you herewith a list of bills incurred on account of bubonic plague and remaining unpaid at this date, and to ask that an appropriation for payment of said claims be made. A like list was duly presented to the Committee on Public Expenditures at the regular session, but as no disposition was then made of the matter, I am obliged to call the attention of your committee to this subject again.

Very respectfully yours,

CHAS. WILCOX, Secretary of Board of Health.

Senator Baldwin moved that the communication be referred to the Public Health Committee. Seconded by Senator White and carried.

At 11:45 o'clock, Senator Baldwin moved to take a recess until 2 o'clock. Seconded by Senator Kalauokalani and carried.

AFTERNOON SESSION.

The Senate met at 2 o'clock.

Senator Kanuha introduced the following resolution:

Dear Sir:—Resolved, That the President is hereby authorized to appoint a committee of three to examine and see that the Journal of the Senate is correct and in due form for

transmission through the Secretary of the Territory to the President of the Senate and the Speaker of the House of Representatives, of the United States of America, in accordance with Section 69 of the Organic Act.★

Senator Crabbe★★ moved to amend to the effect that the committee be made up of five instead of three members. Seconded by Senator Kalauokalani.

Senator Baldwin moved that the clerk of the Senate be given the privilege of making a statement. Seconded by Senator Crabbe.

Senator Kanuha moved the previous question. Seconded by Senator Kalauokalani and carried. The chair put Senator Crabbe's amendment to increase the number of members on the committee to five. Carried.

The Chair then put the motion to adopt the resolution of Senator Kanuha as amended. Carried. The Chair appointed the following committee:

Senators Kanuha, Kalauokalani, Baldwin, Paris and White.

Senator White demurred and the Chair appointed Senator J. Brown in his place.★★★

At 2:55 o'clock, Senator White moved to adjourn until 10 o'clock on Monday. Seconded by Senator Kalauokalani and carried.

EDGAR CAYPLESS,
Clerk of the Senate.

Approved by the Senate:

S. E. KAIUE,
President of the Senate.

[*Addenda by the Clerk:*

★In support of his resolution Senator Kanuha made the statement that he had been informed on good authority that the copies of the Journal to be forwarded to Washington had been changed in the interest of the Republican party, and were not true copies of the official Journal of the Senate.

★★At the request of the Clerk.

★★★Pursuant to above resolution, the committee, assisted by Messrs. J. E. Bush and W. H. Coney, made a thorough examination of the Journal, and read and compared, word for word, the official Journal of the Senate with the original minutes of the Journal Clerk, and also with the printed copies delivered to the Secretary of the Territory for transmission to Washington.

Although such examination was concluded (late in the afternoon) Saturday, June 1st, no report of the committee was made until Wednesday, July 10th. It may be found on page 217.]

EIGHTEENTH DAY

Monday, June 3rd, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, C. Brown, Carter and Nakapaahu absent.

The Journal of the seventeenth day was read and, on motion of Senator J. Brown, seconded by Senator Kahilina, the reading in Hawaiian was dispensed with and the same approved as read.

Senator Russel asked leave to present a verbal report on behalf of the Committee on Health and Education.

The request was granted and the rule declared suspended for the purpose.

Senator Russel then reported to the effect that the Committee on Health had considered the matter of the petition for \$2,500.00 for the removal of the present school exhibit of the Territory from Buffalo to Charleston. The committee had decided to recommend \$1,000 instead of the sum mentioned in the petition.

Senator Kalaauokalani moved that the report be laid on the table to be considered with the report of the majority. Seconded by Senator Crabbe and carried.

Senator Russel asked for more time for the Health Committee to report on the matter of the subsidy for the Queen's Hospital and other institutions of a like nature. This request was granted.

Senator Baldwin reported as follows for the Committee on Agriculture and Forestry:

Your Committee on Agriculture and Forestry, to whom was referred the items in the Appropriation Bill under the heading, "Commission of Agriculture and Forestry," from line 513 to line 524, inclusive, beg leave to report that we have had same under careful consideration.

Item 513, which reads, "One Half Expenses and Freight, Entomologist, \$1,000, is the same as the item in the last appropriation bill entitled 'Incidentals and Traveling Expenses Entomologist, \$1,000.'"

All the other items referred to your committee, except item No. 520, are items which have been heretofore in the appropriation bill lumped under the heading of "Forests and Nurseries, General." Your committee consider it preferable to have everything under this general appropriation itemized, as has been done in the present bill.

Item 52, "Competitive Exhibitions of Fruit, Vegetables, Plants, etc., \$1,000." The plan is to get up a public exhibition here of fruits, vegetables and plants of the country, and we recommend the passage of the same, and also all the items referred to your committee. The sum total asked for is less than was asked for under the last appropriation.

It is the plan of the Commissioner of Forestry to extend the culture in Nuuanu Valley, a plan that your committee hardly approves of.

Respectfully submitted,

H. P. BALDWIN,
J. D. PARIS,
L. NAKAPAAHU.

Senator J. Brown moved that the report be laid on the table to be considered with the appropriation bill. Seconded by Senator Nakapaaahu and carried.

Senator White made a verbal report for the Special Committee of five to, whom was referred the items in the appropriation bill relating to the Department of Public Works, from line 422 to line 494. He stated that the committee had decided that there was no necessity for a change in any of the items and recommended that they be taken up for consideration by the Senate in their regular order.

Senator Paris moved that the committee be instructed to hand in its report in writing with its recommendation. Seconded by Senator Kalauokalani and carried.

At this point, Senator Russel stated that, since the time that he had handed in his verbal report on the matter of the petition for an appropriation to remove the school exhibit of the Territory from Buffalo to Charleston, the other members of the Committee on Education had come in and had signed their names to a report which he had prepared. It was therefore a unanimous report of the committee.

Senator Baldwin moved the adoption of the report. Seconded by Senator J. Brown.

Senator Baldwin then moved to amend his own motion to the effect that the item be numbered as follows:

505a. Expenses Attending School Exhibit at Charleston, S. C. \$1,000.00. Seconded by Senator J. Brown and carried.

Senator C. Brown moved the adoption of the report as amended. Seconded by Senator J. Brown and carried.

The report was as follows:

The Public Health and Education Committee begs to report on petition No. 1 of the Commissioner of the Charleston

Exhibition, asking for an appropriation of \$2,500.00 for the removal of the Buffalo School Exhibit to Charleston after careful consideration begs to report that they recommend instead of \$2,500.00, one thousand (\$1,000) dollars for the purpose, as sufficient.

N. RUSSEL,
W. C. ACHI,
J. B. KAOHI.

Senator C. Brown moved a suspension of the rules in order to report for the Judiciary Committee on the matter of the Message from the Acting Governor dealing with the loan. There being no objection, the request was granted and Senator C. Brown reported as follows:

Your Judiciary Committee to whom was referred the Message of Acting Governor Cooper dated May 21, 1901, in relation to the issue of bonds under an Act passed by the Legislature of the Republic of Hawaii, being Act 71 of the Session Laws of 1896, beg leave to report as follows:

The Attorney General courteously furnished the committee with a copy of his very able and almost convincing opinion on this matter, to the Chairman of the Committee on Finance of the House of Representatives. This Committee agrees with the Attorney General that the Act in question (Act 71 above referred to) was not repealed expressly by the Organic Act, but do believe that it was repealed by implication, for the reason that it was an Act of an independent sovereign state, and not that of the Territory under its Organic Act, and the power derived from such act. This committee thinks that the Act in question is restricted and repealed by implication by Section 55 of the Organic Act, as the provision there contained is direct that the Legislature of the Territory (not the past Legislature of the Republic) may authorize loans; the loan if made under Act 71 of the Republic would not have been authorized by the Legislature of the Territory of Hawaii.

Another ground upon which the Act 71 may be said to be repealed by implication is the direct provisions of the Organic Act as the term of the bonds authorized under it are: 5-20's years, those of the Organic Act 5-15's. Act 71 would certainly require some amendment in this respect; we cannot interject the word 15 in place of 20 or to be more correct, the Act should be reenacted, in our opinion, with whatever changes are made necessary by the Organic Act, by the Legislature of the Territory of Hawaii, it would then be an authorized loan under the Organic Act. The fact that our Organic Act has

provided for the necessary changes or substitutions in certain laws, or as more correctly stated by the heading to Section 9 of the Organic Act, amendment of official titles does not in itself give the power to interject those official titles into Act 71 so that it may be made to comply with the provisions of the Organic Act.

Section 6 of the Organic Act says, that laws of Hawaii not inconsistent, etc., shall continue in force subject to repeal or amendment by the Legislature of Hawaii or the Congress of the United States, what right under this provision have we to make or assume to make any amendments under this extra session of the Legislature to Act 71 of the Legislature of the Republic of Hawaii.

This Committee cannot understand how any remaining bonds authorized to be issued under the provision of Act 63 of the Session Laws of 1898, and that never have been issued, can now be authorized to be issued by the Legislature of the Territory of Hawaii, when the only bonds so provided to be issued were for 5-20 years, and not as provided for by the Organic Act. The special limit of 5-20 would not, is is submitted, authorize a reducing of the term of the bond to 5-15 years without a special amendment or an authorization from the authorities provided by Section 6 of the Organic Act. The reasoning of the Attorney General is forcible and the law may be as in his opinion contends for, but where an issue of bonds and the public is asked to subscribe and put up its money, there should be no ground for dispute or litigation; all such bonds should be like Cæsar's wife, "above reproach." And as the loan in question is authorized by an Act of the Republic of Hawaii, and not by the Legislature of the Territory of Hawaii, we deem it to be safer in order to save any questions as to the validity of the bonds, and prevent any subsequent litigation of any kind, to recommend that the appropriations set forth in the Acting Governor's message, be inserted in the appropriation bill under consideration by the Senate and not as proposed in said message.

EDGAR CAYPLESS,

Clerk of the Senate.

Approved by the Senate:

S. E. KAIUE,

President of the Senate.

NINETEENTH DAY

Tuesday, June 4th, 1901.

The Senate met, pursuant to adjournment, at 2 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Baldwin, C. Brown, J. Brown, Crabbe and Kahilina absent.

The Journal of the eighteenth day was read and, on motion of Senator C. Brown, seconded by Senator Nakapaahu, the reading in Hawaiian was dispensed with and the same approved as read.

Senator Russel reported as follows for the majority of the Committee on Public Health and Education:

Hon. S. E. Kaiue, President of the Senate.

Sir:—The Committee on Public Health and Education to whom was referred communication No. 10 containing the opinion of the Attorney General in regard to the appropriation required by the Queen's Hospital and other similar institutions begs to report:

That while we do not deny facts stated in the opinion of the Attorney General, namely, that the said hospital is a useful charitable institution and unsectarian, we maintain that

it is a private one and that any appropriation of money will conflict with the spirit and intent of Section 55 of the Organic Act.

It is private since it is owned, managed and controlled by a private corporation, the half of the Governor's appointed trustees not constituting the majority of votes in the board.

We further report that according to the estimates of the secretary of the corporation hereto attached, the whole property of the corporation is \$52,000.00 considerable part of the Queen Emma Estate being recently lost in litigation. This property will soon be increased by \$35,000.00 donated by the Bishop Trust; therefore its total value in the near future will rise to \$87,000.00 with the yearly revenue at 6 per cent not exceeding \$5,220.00.

Thus while the contribution of the corporation is but one-half of the regular contribution by the Territory its representation in the Board of Trustees is one-half.

Some of the terms imposed by the charter are not agreed with, namely: No dispensary is established at the hospital as provided by the charter.

No bond is filed by the corporation's treasurer with the Territorial Treasurer.

No semi-annual report with Superintendent of Public Works is to be found.

Although any appropriation for such hospital is not justified by the Organic Act, the committee nevertheless recommends the passage of it as in the bill, namely, \$20,000.00 for the biennial period as a matter of necessity, there being no government hospital in existence.

We are opposed however, to any further improvements or extension of this hospital and any additional appropriation for that purpose for the following reasons:

1. The hospital is located in a thickly populated quarter in the middle of the town, which is highly improper both for the town and patients.

2. Hospital is located upon a flat, undrained ground, kept constantly wet by the natural drainage of the neighboring hills.

3. Hospital presents an old structure built without any consideration to hygienic hospital requirements and permeated with all possible germs of disease. As such it has to be condemned and a new government hospital is to be built out of town, upon elevated grounds either on detached pavilion system or on barracks principles.

In regard to Hilo and Malulani hospitals, which are government hospitals, the property of the Territory and under

its full control they both require their full running expenses. As for Hilo hospital, the Exhibit No. 2 presents a communication from the Chairman of Trustees of said hospital, requiring \$500 a month as absolutely necessary figure to run it. We recommend therefore, that the item of \$5,000.00 as in the bill be raised to \$12,000.00 for the biennial period; also \$1,200.00 for the sidewalk and the item of Malulani hospital be raised from \$5,000.00 to \$8,000.00 for the same reasons.

Waimea hospital and hospital for Incurables are private institutions having no charter and any subsidy to them not being justified, we recommend the corresponding items be stricken out.

The Lihue, Kauai, hospital charter does not mention of any part the Territory has in its management or control. Nothing is said of the free treatment of government patients either. It is a private hospital and any appropriation for it is not justified.

Koloa hospital, Kauai, is also a government hospital under the control of the Board of Health, but it is run only part of the time and requires, but a small subsidy. We recommend the item as asked by the Board of Health, namely, \$1,000.00.

There is no corporation as Kapiolani Maternity Home as stated in the estimates. The name of the corporation and institution is Kapiolani Home. It is intended for the Hawaiian women only. Out of seven trustees only one is appointed by the Superintendent of Public Works. Although it is a useful institution, we do not think the Organic Act justifies any appropriation.

Respectfully submitted,

N. RUSSEL,
Chairman,
J. B. KAOHI.

Senator White moved that this report be laid on the table to be taken up with the Appropriation Bill. Seconded by Senator Russel and carried.

Senator Carter reported as follows for the minority of the Military Committee on items under the head of Military:

The minority member of the Military Committee, to which was referred certain items under the Appropriation Bill, begs to report as follows:

To abolish the military entirely seems hardly wise, for circumstances may arise which would make them invaluable.

But, undoubtedly, considerable economy could be effected.

I recommend therefore, the striking out of the first two items, Nos. 351 and 352, thereby making a saving of \$2,400.00.

Item 353, chief musician, \$720; is \$30 a month paid for the instruction of the drum corps, which is a good thing, and I recommend it pass in the bill. The next three items—item 354, armorer, \$1,680; item 355, servant, \$600; item 356, janitor, \$1,080, can be combined. Therefore I recommend striking out those three items, and inserting the following: Item 354, armorer and janitor, \$3,000; thus effecting a saving of at least \$360. The item of servant is very nearly that of the janitor; for at times it is necessary to employ assistance to take out and clean up the various properties in the quarter-master's department.

Items 357 and 358, clerks at \$2,800 each. I recommend that these be combined under one item of clerks, \$3,000; thereby effecting a saving of \$600.

Under current expenses, item 553, stationery and printing, \$1,000. I recommend cutting this in half and making it \$500. Item 554 furniture, etc., \$450. I recommend this be cut down to \$300. Item 555, transportation \$500. I recommend this be cut down to \$300. Items 556 and 557, uniforms for the enlisted men and officers, \$8,750.00. I recommend the striking out of the officers uniforms, allowing them to be paid for by the officers themselves, thus effecting a saving of \$1,750.00. I therefore recommend the following item: Uniforms, enlisted men, \$7,000.00. Item 558, incidentals, \$2,500. I recommend this item be reduced to \$2,000.00. Item 559, company and regimental allowances, 12 companies at \$50 a month, \$14,400; 1 regiment at \$100 a month, \$2,400: \$16,800.00. I recommend that the regiment allowance be reduced to \$75 per month, a saving of \$600, and that the allowance for companies be left as in the bill.

There are at present nine companies, and it is proposed to establish one on Kauai, another on Hawaii and one at Lahaina, Maui.

Item 562, ordnance supplies, \$5,500. I recommend this be reduced to \$5,000. With these very material reductions in almost every item, a great saving can be effected in conformity with the other departments. The fact that there are a few United States troops quartered here is no excuse for abolishing our Territorial militia. In case of trouble, the Governor may call upon the United States troops here, but it is left for the commandant here to respond or not, as he pleases, and he

might deem it necessary to wait until he heard from Washington.

The militia has a wholesome effect upon the young men of this Territory, teaches them discipline and makes largely towards civic pride and patriotism, the value of which cannot be measured in dollars and cents.

A great deal is now being said about the depleted condition of our Treasury. Members of the Senate must not forget that that is only a temporary difficulty; that the actual revenue will be in the neighborhood of \$2,000,000 and the appropriation bill (even allowing for the continuance of the militia in full) not exceed the revenue to any great amount.

Respectfully submitted,

G. R. CARTER, Chairman Military Committee.

June 4th, 1901.

Senator J. Brown moved that the report be laid on the table to be taken up with the report of the majority and the bill.

Senator C. Brown reported as follows for the Judiciary Committee on various items in the Appropriation Bill under the police department:

Hon. S. E. Kaiue, President of the Senate. Sir:

The Judiciary Committee, to whom was referred the following items in the Appropriation Bill:

405, Support and maintenance of prisoners, \$90,000.00.

406, Incidentals, civil and criminal expenses, \$40,000.00.

407, Coroner's inquests, \$6,000.00.

408, Expenses of witnesses in criminal cases, \$7,000.00.

409, Detective services, \$6,500.00.

Beg leave to report as follows:

Item 405 this committee recommends pass as in the bill. The money appropriated by this item is intended to be spent as follows: The Island of Hawaii is allowed to draw at the rate of \$1,000 per month, the Island of Maui at the rate of \$500 per month, and the Island of Kauai at the rate of \$250 per month. The money so drawn is paid out for food, clothing, shoes, etc., and does not include the pay of any jailers or turnkeys, and is used only for the support of the prisoners on the several Islands above named. The amount so allowed being for the ensuing biennial period, \$42,000. The balance, \$48,000, is expected to be spent on the Island of Oahu and will be used for the same purposes as on the other Islands, with this exception, that the transportation of persons committed for trial from other circuits, and awaiting trial and confined in

the Oahu jail between the terms of court, as well as the expenses of the officer having in charge such persons coming to Oahu and returning from here for trial, are charged to this appropriation.

We also recommend that item 406 be passed as in the bill. The expenditures from this sum include the payment of the rent of all telephones, the support, care and feeding of horses used and owned by the department, the traveling expenses and costs of sending officers away from headquarters to different places when needed or called upon for quelling riots, disturbances, etc., the costs of caps, helmets, clubs, etc., horse shoeing, the traveling expenses of the Attorney General and his deputies when on circuit or upon government business, stationery for Police Department for all the Islands, and Attorney General's office, and many other items both on the Island of Oahu and other Islands of the group. This item covers all the above enumerated expenditures for the Territory.

We also recommend that Item 407 pass as in the bill. Under existing law an inquest has to be held upon any person dying who was unattended by a physician. This has doubled the work of the Coroner and has caused a large increase of the pay of the jurors on the inquest, which is also paid out of this fund.

When the people upon whom an inquest has been held, and the friends or relatives are too poor to bury them, the expenses of such burial, including coffins, are also paid out of this fund, and such cases are by no means unusual, and are upon the increase, so this committee is informed.

We also recommend that Item 408 pass as in the bill. The expenditure from this item is confined principally to the other Islands, and is for the traveling expenses as well as the lodging and food of such witnesses as are brought by the government from different parts of the several Islands to the place of trial of the offenders against whom the evidence of the persons subpoenaed is wanted. The change of our jury system, grand and petit jury, also increases the cost of this portion of the department of the Attorney General.

We also recommend that Item 409 pass as in the bill. This item has been reduced from \$13,000 in former years to the amount asked for. The expenditure of this amount is limited as follows:

Hawaii at the rate of \$50 per month, Maui at the rate of \$50 per month. Kauai has no regular allowance, but draws on the fund occasionally. Oahu, as a matter of course, draws the greater portion of the appropriation, having a much larger population and requiring more work by detectives. A portion of the money is used in trying to prevent the illicit sale of liquors, etc., etc., and from the nature of this kind of work changes have to be made in

the personnel of the force used frequently, for as soon as they become known their usefulness is destroyed.

This committee, after a careful examination, and taking into consideration the increase of population, as well as the bringing into the country of a new class of labor, have come to the conclusion that it might seriously cripple the efficiency of the department should a reduction be made in any of the above items, and recommend that all items referred to them pass.

This committee also recommend the insertion of a new item to read as follows:

Police Call Box System, \$15,000.00.

And in so recommending call attention to the fact that the introduction of the system will be a permanent improvement, and will materially increase the efficiency and usefulness of the police department. With this call system established, a policeman upon his beat can in a very short time, when it becomes necessary, have help and assistance when needed, when if the system was not established the officer would have to go or send to headquarters for the necessary assistance. All towns of the size of Honolulu have a system of this kind, and when once established its use becomes absolutely necessary, especially when the territory over which the police department has its beats and watches is extended over a large territory outside of the limits of the town proper.

All of which is respectfully submitted.

CECIL BROWN,
WM. WHITE,
CLARENCE CRABBE.

Honolulu, June 4th, 1901.

Senator J. Brown moved the adoption of the report. Seconded by Senator Achi.

Senator Kalauokalani moved that the report be laid on the table to be taken up with the Appropriation Bill. Seconded by Senator Nakapaahu.

The motion of Senator Kalauokalani to lay the report on the table was then put and lost. The chair next put the motion of J. Brown to adopt the report of the committee, which carried.

Senator Achi reported as follows for the minority of the committee on Public Health and Education on certain items in the Appropriation Bill:

The minority of your committee on Public Health, to whom the Items 541 and 548, inclusive, were referred, begs leave to report as follows: All those items were recommended after careful consideration by the Board of Health. Two of the hospitals, to-

wit, the Koloa and Hilo hospitals, are government institutions and are under the whole control of the Territory, but the other hospitals are not under the sole control of the government, but they are generally used for the benefit of all sick people; and the minority of your committee claims that Section 55 of the Organic Act specially allows the Legislature to appropriate money to aid all charitable institutions.

While we appropriate money for physicians in different districts in order to help the poor of all classes, I don't know of any reason why we could not appropriate money to aid the hospitals.

I believe the several hospitals are built and established for the benefit of all.

I therefore recommend that the items 541 to 548, inclusive, may be passed as in the Appropriation Bill.

W. C. ACHI.

Senator Achi moved that the report be laid on the table to be considered with the report of the majority and the Appropriation Bill. Seconded by Senator J. Brown and carried.

Senator Paris reported as follows for the Committee on Public Lands, on various items in the Appropriation Bill:

Hon. S. E. Kaiue, President of the Senate:

Sir:—Your Committee on Public Lands, to whom was referred items in the Appropriation Bill under Survey Department, would report as follows:

Your committee find that most all these salaries are the same as in the former Appropriation Bill.

Your committee have visited this department and find that they are doing valuable work in compiling maps of all the different Islands, giving all the different lands, elevations, etc., which are always open for the information of the public. They are also preparing maps for the department at Washington, and maps of this city for the Tax Assessor.

Your committee would therefore recommend that Items 287, 288, 289, 290, 291, 292 and 293 pass as in the bill.

Items 526 and 527.

It is proposed during this period to have field parties to survey and cut up government land on the different Islands into homesteads, which will require the employment of extra men.

Your committee would recommend the items be changed to one and read: Expense of Field Parties and Office Work, \$48,000.00, instead of \$55,000.00.

Items 528 and 529 pass as in the bill.

J. D. PARIS,
J. T. BROWN,
L. NAKAPAAHU.

Snator C. Brown moved the adoption of the report. Seconded by Senator Nakapaahu and carried.

Senator Paris reported further for the same committee on other items in the Appropriation Bill, as follows:

Hon. S. E. Kaiue, President of the Senate:

Sir:—Your Committee on Public Lands, to whom was referred Items 265, 266, 267, 268, 269, 270, 271, 272, 273, 276, 277, 283 and 284 would report as follows:

Item 265, Pay of Commission.

This item has been raised from \$4,200.00 to \$7,200.00. Your committee fails to see the reason for this large raise and would recommend it be reduced to \$4,800.00.

Item 266 we would recommend pass as in the bill.

Item 267, Pay Chief Forester.

Your committee find that he is now being paid \$125 per month. We would recommend that the item pass at \$3,000.00.

Items 268 and 269 we recommend pass as in the bill.

Item 270, Expert Forester.

Your committee find that \$1,500.00 was appropriated in 1898 for this office but not drawn. We recommend that this item be stricken out.

Items 271 and 272, Laborers, Makiki and Nuuanu.

Your committee find that nearly all of Makiki is to be taken over by the Experimental Station. We therefore consider the expense should be reduced, and we would recommend Item 272 be reduced from \$6,480.00 to \$4,320.00.

Item 273 pass as in the bill.

Item 274 be stricken out.

Items 276 and 277 to pass as in the bill.

Item 283.

Your committee find that this item was appropriated in 1898 but has not been spent.

While your committee feel that these parks are much needed, we feel that there are other improvements more necessary.

We would therefore recommend this item be stricken out.

Item 284 we would recommend pass as in the bill.

The Senate met at 2 o'clock.

Senator Russel reported as follows for the majority of the Committee on Public Health and Education:

Hon. S. E. Kaiue, President of the Senate.

Sir:—In regard to the unpaid bills of the Board of Health presented by the secretary of the said board and referred to the Committee on Public Health, we beg to report as follows:

1. Of the two lists for the amounts of \$7,445.38 and \$492.30, total \$7,937.68, we recommend to strike out \$285 on the bill of F. Harrison, which amount is not due and not recognized by the Board of Health since the said amount is charged for moving F. Harrison's own furniture out of the condemned premises. The balance of \$253 is due to him and has been paid.

2. There was a mistake of addition in the first bill of Hus-tace & Co. on the original list amounting to \$100 in which mistake being corrected and all bills put together, gives a sum total of \$528 due him and to be paid.

3. The bill of Loy Hong Co. of \$40.60 is stricken out no such man being found on the place according to the statement of the local postmaster to the Board of Health.

4. A bill of Paia Plantation Co. of \$206.36 alleged to be due for labor in suppressing the bubonic plague on the plantation, is stricken out, since in our opinion plantations had to contribute something in suppressing the disease in their own places, considering the suffering and losses of private poor citizens that never will be adequately recompensed.

5. The rest of the bills on the second list which have been transferred to two new lists, amounting to \$7,072.91 and \$492.30, total \$7,565.21, we find due, and recommend to be paid, although the Auditor, as witnessed by the Exhibit No. 1, has refused to pay them on technical grounds.

All said bills are approved by the Board of Health, as witnessed by the Exhibit No. 2. The Exhibit No. 3 relates to Secretary Wilcox's bill of \$400.00.

N. RUSSEL,
J. B. KAOHI.

Senator C. Brown moved that the report be received and that consideration of the same be deferred until the appropriation bill should be taken up. Seconded by Senator J. Brown and carried.

Senator Kanuha reported as follows for the majority of the Committee on Military on various items in the Appropriation Bill:

Hon. S. E. Kaiue, President of the Senate.

Sir:—The majority of your Committee on Military to whom were referred items making up the expenditures for this branch of the service for the ensuing biennial period beg leave to report as follows:

We have obtained through the courtesy of members of the Lower House copies of statements submitted by the Auditor General upon request of the House Committee. We feel that the information to be gleaned from these statements should be available to the members of this Senate and therefore submit them as handed to us.

For the period from January 10, 1895, to December 31, 1900, the expenditures reached the enormous total of \$948,153. The expenditures for 1900 evidenced the reckless extravagance and total disregard for the public interests with which the officers and members of this branch of the service conducted the affairs of their department.

The offensiveness of this course is all the more apparent when we contemplate that from August 8, 1898, the Stars and Stripes yielded us all the protection we needed, and the gross license evident in the manner of disposing of the funds appropriated, only shows how near we were trenched on a military despotism when the Spanish-American war brought to our long suffering people the protection of the flag of freedom.

Such were the conditions when the Legislature was elected. Your committee had hopes that inasmuch as representative gov-

ernment was established in the land, military would cease its pernicious activity and extravagance, and for this reason, we took up the inquiry into this year's expenditures with a spirit of self-discipline and restraint, but what did we find?

The detailed list of warrants drawn on Support of Military Pay Roll for Jan. 1st to May 14th, of this year, amounts to \$3,-701.21.

The expenditures under "Support of Military" for the same period amounts to the further sum of \$9,957.81 a total of \$13,-659 for four and one-half months or at the rate of \$75,000 in twenty-four months.

Five warrants drawn during this period paid to, are for G. T. Turner for making and repairing uniforms, the snug sum of \$903.20. Add to this the warrants for cloth and personal furnishings drawn in the same period, amounting to \$1,193.35, and we have a grand total of \$2,096.25 as expenditures for uniforms and trimmings during the period. The above amount must include cost of cloth and trimmings for an officer's uniform, as we find a warrant for making one uniform, issued Feb. 28th, of this year, to S. Roth & Co., the uniform being for "Capt. A. G. Hawes." Judging from the amount paid for stationery, \$669, there ought to be enough of the stuff on hand to enable this Legislature to send to each individual member an engrossed invitation to quit his job.

Paints and oils, etc., amounted to \$2,303.01. Material enough that, if evenly spread, might cover the Bungalow bar, providing the "Pay Roll of the Laborers" of the "Dining Room for Senate Committee Room" and the "Oil" would hold out.

To be serious, Mr. President, the majority of your committee feel surprised at the attitude of the minority of the committee, at this time. During the regular session you will remember how he stood almost alone in his fearless utterances against the open and shameless method of making a saloon annex of the above mentioned "Dining Room."

Why should we continue a military service so effete as this one has become? Why hold up to the civil departments of the government this relic of repression and subversion of rights—this insatiable maw that swallows the taxes without any return except in services which mean the collection of more taxes. What shall become of the young men who, entering the military service, find those noble attributes which the minority claims for a military discipline are, in fact, entirely lost sight of?

We are asked for means to extend this service, to make it more "effective," to organize a company on Maui, another on Molokai, one at Lahaina, at Kohala, and for what?

Is it not for the same thing for which the Pennsylvania troops

were created and ordered out? To suppress the mill workers of Homestead and force them to return to work when they endeavored to secure a greater measure of the fruits of their labor? And were not these wage-workers shot down by dozens? Do we not see today the former owner of the Homestead plant, a one hundred millionaire, parading up and down the United States, looking for places to give away the earnings of those men buried under the sod of that battlefield at Homestead? The State of Pennsylvania paid the shooters. God forbid that we, in attempting to establish government of the people, by the people and for the people, should forget the constitutional privileges contemplated thereby, equal rights for all, special privileges for none.

Let those who fill this country with ignorant, uncontrollable elements bear the burden of so doing. If we cannot prevent their coming, let us not put anything between them and an honest lying.

The strike just closed at Albany, N. Y., cost enough money to have paid the advances asked by the strikers for ten years, but the military were called out and innocent lives were sacrificed in an endeavor to "suppress" and awe citizens of the United States.

For these reasons, Mr. President, your committee feel that the best interests of this community will be served by loading the entire military paraphernalia aboard a scow, have her towed three miles from shore, and the stuff fed to the sharks of the sea, and, dispensing with military appropriations, do away with those who, on occasion, might assist land sharks to become our masters.

Let us put the money so saved to roads and bridges, or other use, assisting industry and commerce, the handmaids of prosperity and contentment.

Therefore the majority of your committee on military recommend that all items from 350 to 359, on page 31, and all items from 552 to 563, on pages 32 and 33, be stricken out.

Your committee recommends that the item of janitor pass as in the bill, and he to take charge of the military equipment until further consideration can be made of the same.

I. H. KAHILINA,
DAVID KANUHA.

Senator Kahalina moved to adopt the report of the majority of the committee. Seconded by Senator Nakapaahu.

Senator Achi arose to a point of order to the effect that the report was contrary to the provisions of Seceion 66 of the Organic Act.

Senator White moved that the report of the majority be laid on the table to be taken up with the report of the minority and the

bill on Monday. Seconded by Senator Achi.

Senator Russel moved the previous question.

Senator C. Brown arose to speak and was recognized by the chair.

Senator Russel insisted on the previous question being called. The chair stated that the motion had not been seconded previous to Senator C. Brown arising to the floor. The motion for the previous question was therefore not in order.

Senator Russel appealed from the ruling of the chair. Seconded by Senator Kalauokalani.

Senator Carter moved to adjourn. Seconded by Senator White and lost.

Senator C. Brown moved to adjourn until 10 o'clock Saturday. Seconded by Senator Kalauokalani.

Senator Carter arose to a question of personal privilege.

Senator Russel again moved the previous question. Seconded by Senator Kalauokalani.

The chair refused to entertain the motion, stating that when the report of the minority of the Military Committee had been read it had been laid on the table to be taken up for consideration with the report of the majority and the bill.

Senator J. Brown moved that the report of the minority be taken off the table for consideration. Seconded by Senator Kalauokalani and carried.

The Clerk read the report of the minority of the Military Committee.

Senator C. Brown moved to adjourn until 10 o'clock Saturday. Seconded by Senator White.

The chair stated that the vote had resulted in a tie and that he would cast his deciding vote in favor of adjournment. Time, 3:50 p. m.

EDGAR CAYPLESS,

Clerk of the Senate.

Approved by the Senate:

S. E. KAIUE,

President of the Senate.

After prayer by the Chaplain the roll was called, showing Senators Baldwin and White absent, by excuse.

The Journal of the previous day was read.

The chair announced a message from the Acting Governor.

Senator Kalauokalani moved that the Journal of the Twenty-second Day be approved. Seconded by Senator Kanuha.

Senator Achi moved to amend to the effect that all that portion of the Journal after the adjournment announced by President Kaiue be stricken out. Seconded by Senator Carter.

Senator Carter moved that the ayes and noes be called on the question. Seconded by Senator Achi and carried.

The amendment of Senator Achi was then put and carried on the following showing of ayes and noes:

Ayes: Senators Achi, C. Brown, Carter, Crabbe, Kaiue, Paris and White—7.

Noes: Senators Kahilina, Kalauokalani, Kanuha, Kaohi, Nakapaahu and Russel—6.

Excused: Senator Baldwin—1.

In doubt: Senator J. Brown—1.

Senator C. Brown moved that the minutes be approved as amended. Seconded by Senator Achi and carried.

The message from the Acting Governor was then read, as follows:

Expenses Circuit Court, Fifth Circuit, \$4,000.00.

Making a total sum of \$38,000.00.

Being \$2,000 more than asked for.

The reason of the increase is that the change in our jury system and the inaugurating of the Grand Jury has increased the expenses of all Circuit Courts. The expenses of the last May term of the Circuit Court of the First Circuit were in the neighborhood of \$2,000.00, and as there are four terms a year, the estimate is based upon the cost of that term. Upon the suggestion of the Chief Justice, the expenses of each Circuit Court for the other circuits have each been set apart for the reason that each Judge will know what sum of money is set apart for the expenses of his circuit. Heretofore the expenses have all been taken out of the lump appropriation, and each circuit judge was notified by the Clerk of the Judiciary Department how much of such lump appropriation was to be used by him.

The sums recommended are expected to be sufficient, and are based upon data and the expenses of the different circuits, received since the Grand Jury system has been in practice in the Territory.

Item 382, purchase of law books Supreme Court, we recommend pass as in the bill.

Item 383, purchase of lawbooks for other circuits we recommend pass at \$500, the same as heretofore allowed for that purpose.

Item 385, we recommend pass as in the bill. further reason that it is not necessary nor a needed work at the

Item 386, compiling and publishing Digest Hawaiian reports, we recommend be stricken out for economy's sake, and for the further reason that it is not necessary nor a needed work at the present time.

Item 387, we recommend be changed to read "Stationery, Incidentals and Travelling expenses of District Magistrates, \$3,000."

By doing this, items 388, 391, 394, 397, 399 and 401 can all be stricken out at a saving of some \$400.

Items 390, 393 and 396, we recommend pass as in the bill. The money here appropriated is used by the judges of the several circuits in paying the travelling and other expenses caused by holding of the terms of court in different places of such circuits, and away from the permanent residence of such Court.

We therefore recommend that this report for the reasons above set forth be adopted.

Senator Kalauokalani moved that the resolution be laid on the table to be considered with the Appropriation Bill.

Senator Kalauokalani then introduced the following resolution:

RESOLUTION.

Whereas, on the fortieth day of the regular session, the committee on Public Lands reported on a petition signed by the voters of the city and asking for the extension of Fort street to the Pauoa road, and whereas, said Committee recommended that an item of \$20,000.00 be set aside for the purpose named; now therefore,

TWENTY-SIXTH DAY

Thursday, June 13th, 1901.

The Senate met, pursuant to adjournment, at 2 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Baldwin, Crabbe and White absent.

The Journal of the Twenty-fifth Day was read and, on motion of Senator J. Brown, seconded by Senator Kahilina, approved as read.

Senator Carter reported as follows for the Committee on Ways and Means:

The Ways and Means Committee, to whom was referred certain items in the Appropriation Bill, under Current Expenses

of the Territorial Department, begs to report as follows:

412. Incidentals, Treasurer's office, \$11,000.00.

This item covers the cost of stationary, books, etc., of this office, but as this department no longer keeps the books of the government, all that being transferred to the Auditor, the committee believes that this item can be materially reduced, and, therefore, recommends that it be reduced to \$5,000.00.

413. Expenses Shipping Hawaiian Silver Coin in return for American Silver, \$20,000.00.

Congress has not yet ordered the Hawaiian Silver Coin redeemed and we see no reason why the expense of this should be borne by the Territory, and, therefore, recommend that this item be stricken out.

415. For Discount on Mutilated or Abraided Coin, \$5,000.

This item, also is not needed until Congress has made a demand upon the Territory to pay for the redemption of the silver coin of the Republic of Hawaii, and your committee, therefore, recommends that it be stricken out of the bill.

416. Interest on Bonded Debt, Commission and Exchange, \$500,000.00.

The committee find that the bonds of the Republic of Hawaii held in England, have all been redeemed by the United States government, and it will be no longer necessary to pay exchange upon interest due. The Public Debt has been reduced to something under a million dollars, but the Treasurer is obliged under the law, to pay 5 per cent interest on the warrants that are outstanding and, therefore, your committee recommends that this item be passed as follows:

Interest on Bonds and Warrants, \$200,000.00.

417. Incidentals, Tax office, \$11,500.00.

Under this head will come the extras necessary in establishing the Income Tax, and your committee believe it should not be reduced, and recommend that it pass as in the bill.

418. Incidentals, Registrar of Conveyances, \$2,800.00.

Under this item, the Registrar purchases card indexes cases, index books, stationery and supplies, and your committee believes it would not be wise to reduce this item very materially. It therefore recommends that the item be passed at \$2,500.00.

If this report is approved, it will make a saving of \$331,300.

G. R. CARTER,

DAVID KANUHA.

Senator J. Brown moved the adoption of the report. Seconded by Senator Carter and carried.

Senator Paris reported as follows for the Public Lands Committee:

Your committee on Public Lands to whom was referred items 279, 280 and 281.

Item 279 "Pay of Stenographer and Typewriter."

Your committee find that formerly there was a Clerk employed and paid out of the general expenses for nurseries at the rate of \$25 per month.

The correspondence of this office has greatly increased. Not only locally, but with the department at Washington and other parts of the world.

It is therefore necessary to have more efficient help. We recommend the item pass as in the bill.

Item 280 "Pay of office Boy and Messenger." We recommend that this item pass as in the bill.

Item 281 "Pay of Wagon Driver." This item has heretofore been paid out of general expenses. We consider it needed and recommend it pass.

J. D. PARIS,
J. T. BROWN;
L. NAKAPAAHU.

Senator J. Brown moved the adoption of the report. Seconded by Senator Kalauokalani and carried.

Senator White reported as follows for the Special Committee to whom were referred various items in the Appropriation Bill under the head of Department of Public Works:

Your Special Committee to whom was referred items 422 to 494, inclusive, beg leave to submit the following report:

Item 422, incidentals and traveling expenses, \$3,500.

We recommend that this item pass as in the bill, covering as it does all incidentals connected with the office of Assistant Superintendent of Public Works and all the necessary traveling expenses of the bureau, with the exception of the road engineer.

Item 423, traveling expenses road engineer, to be accompanied with vouchers, \$1,500.

This item includes all necessary traveling expenses of the road engineer, receipted vouchers being presented with all bills. We recommend the item pass.

Item 425, repairs, furniture and additions to Government buildings, \$50,000.

We recommend that this item receive consideration, being one of the most important under the consideration of your committee, all repairs, furniture and additions to buildings on the different Islands, being used by the several departments of the government, are paid from this appropriation.

We recommend that the item pass as in the bill.

Item 426, landing and buoys, Hawaii, \$8,000.00.

We respectfully ask that this item pass as from this appropriation is paid all the expenses connected with keeping all wharves, landings and buoys on the Island of Hawaii.

Item 427, landings and buoys, Maui, \$3,000.00.

We recommend that the item pass as in the bill, for the reason stated above, and the improvements necessary to wharves, etc., on the Island of Maui.

Item 428, landings and buoys, Molokai, \$500.00.

We recommend this item pass.

Item 429, landings and buoys, Honolulu, \$50,000.00.

Your committee respectfully submits that too much stress cannot be laid upon the absolute necessity of an increased appropriation for landings and buoys, Honolulu.

The congested state of the harbor, the pressing need of proper wharf facilities to meet the increased amount of shipping arriving at this port, seem to make it apparent that a larger appropriation should be made for the coming biennial period, and your committee, after careful consideration of this item, would respectfully recommend that the appropriation be inserted at \$50,000.00.

Item 430, landings and buoys, outer districts, Oahu, \$1,000.

We recommend that this item pass as in the bill, all improvements to landings and buoys on the Island of Oahu with the exception of Honolulu, being paid from this appropriation.

Item 431, landings and buoys, Kauai, \$2,000.

Your committee submits that this is an important item for the Island of Kauai, and favors its passage.

Item 432, landings and buoys, general, \$5,000.

This item is used as an emergency fund in case of wharves being burnt down or landings destroyed.

We recommend the item pass as in the bill.

Item 433, lighthouse expenses, \$3,000. This item includes all necessary expenses incurred in the Territory covering all outlay for oil, waste and other incidentals requisite to the proper care of the lighthouses in the different Islands. We recommend it pass as in the bill.

Item 437, electric light, Honolulu, \$24,000.

This item covers all the expense of the electric light in Honolulu, repairs, etc., of the electric light station, purchase of new and necessary equipment, and your committee urges its passage.

Item 438, electric lighting, Hilo streets, \$4,000.

This item covers the same expenses for Hilo, and the advisability of its passage is presented to your favorable consideration.

Item 434, steam tug, \$20,000.

Your committee respectfully begs to state that after having

SENATE JOURNAL.

fully weighed the different arguments advanced, both for and against the passage of this item, and giving due consideration to the fact that a garbage incinerator such as is now under consideration would in a measure lessen the necessity of maintaining the steam tug, and also not favoring government opposition to private enterprises still with the garbage incinerator a simple question of the future, and private enterprise, when converted into a monopoly not being conducive to the public good, your committee feels that the time has not yet arrived for the abandonment of the steam tug, and submits that there is still great need for its maintenance and therefore recommend this item pass as the bill. The usefulness of the tug for public purposes should be applied to earnings which would show that the tug supports itself.

Item 435, dredging Honolulu harbor, \$25,000.00.

This item is one of the most important considered by your committee, as the value of the work done in Honolulu harbor by dredger is without doubt of the greatest importance to the shipping interest, and we respectfully urge the passage of this item.

Item 436, expense pilot boats, \$2,000.

The expense incurred in keeping the pilot boats in repairs, the chase of new ones and other paraphernalia incident to, this item, urges your committee to present this item to your favorable consideration.

Item 439, lighting streets other than Honolulu and Hilo, \$10,000.

Owing to the increased growth of the numerous towns in the territory outside of Honolulu and Hilo, and the necessity of some provision being made for the proper lighting of their streets, your committee favors the passage of this item.

Item 440, running expenses, laundries, \$11,000.

This item is necessary to the sanitary condition of Honolulu, and is a source of constantly increasing revenue to the government. The laundry at Iwilei, yielding a regular monthly income to the government, we favor its passage.

Item 441, curbing and paving government sidewalks, \$10,000. The necessity of the government putting proper curbing and sidewalks on its own property is apparent to your committee, and we urge the recommendation pass.

Item 442, for constructing sidewalks (Chapter 23, Section 374, Civil Laws), \$25,000. It being necessary for the government to construct sidewalks on the property of private parties, as provided in Chapter 23, Section 374 of the Civil Laws, it is obvious that a large appropriation should be made for the purpose, and we favor the passage of the item as in the bill.

Item 444, fencing and grading government lots, \$2,000. We recommend this item pass, as it frequently is necessary for the government to fence and grade lots under its control.

Item 445, printing and advertising, \$8,500. This item covers the entire expense of printing and advertising in the Department of Public Works, and is absolutely necessary to the proper running of the department. We favor its passage as in the bill.

Item 446, quarantine, diseased animals, \$2,000. The necessity of having a fund for which this item stands is obvious when we consider the large shipment of animals continually arriving at the different ports on the Islands, and we leave it for your favorable consideration.

Item 447, Government pounds, \$1,000. This item defrays all expenses connected with the different pounds in the Territory, and we urge it pass as in the bill.

Item 448, Department incidentals, \$4,000. All incidentals necessary to the proper running of the office of the Superintendent of Public Works, in some cases used as an emergency fund in case of extra help needed.

Item 450, running expenses, Bureau of Water Works, \$8,000. Under this appropriation are included all horses, vehicles, harness and repairs to same, printing and advertising, tools, etc., necessary to the proper running of the Honolulu water works, and we approve its passage.

Item 451, repairs to reservoirs, \$8,000. All repairs to the different reservoirs are included in this appropriation, and we urge its passage as in the bill.

Item 452, general repairs, \$12,000. Under this item are included repairs to the entire pipe system of the Honolulu Water Works, with the exception of the repairs to reservoirs, and though with a largely increased mileage of pipe system this amount as in the bill is the same as for the last biennial period, we ask your favorable consideration of the item.

Item 453, running expenses, pumping plant, \$45,000. Thirty-five thousand dollars of this item is needed entirely for coal used by the different pumping plants, the remaining \$10,000 being needed for repairs, waste, machine oil, labor, tools, sundries, and we favor the item passing as in the bill.

Item 454, running expenses, market, \$1,000. This item covers all expense incidental to the market, such as extra labor, cleaning up outside the market proper, keeping the grounds in repair, and all expenses incurred except those which would naturally be drawn from the appropriation "Repairs, furniture and addition to government buildings." We leave it to your favorable consideration.

Item 455, Hilo Water Works, \$1,000. The entire maintenance of the Hilo water works, with the single exception of the salary of the Superintendent, is covered by this item, and we recommend it pass as in the bill.

Item 456, Laupahoehoe Water Works, \$300. This item is the same as for Hilo, and we consider it very moderate and would urge its passage.

Item 456a, Lahaina Water Works, \$30,000. Your committee further recommend as item of \$30,000 for Lahaina water works be inserted in the Appropriation Bill and numbered as Item 456a. We find that on the 30th day of September, 1899, James T. Taylor, consulting engineer, made a full and complete report for the town of Lahaina, Maui; also filing a specification for the construction of the same, and a blue print showing plan of water works as proposed by his report. The resident physician of Lahaina, Dr. Chas. Davidson, on April 25, 1901, communicated with the Board of Health, as follows:

"I have been requested by a number of representative people of this district to ask the Honorable Board of Health to support a movement in favor of establishing a water works in Lahaina. Personally, I think the move is a good one, as the people living near the sea will receive better drinking water, and furthermore, the small land holders will be able to irrigate their little vegetable gardens. The main object is to supply over 500 school children with suitable drinking water during the hours of school. Please present this letter to the Honorable Board of Health for their consideration."

From the facts above submitted we urge that this item be favorably considered by the Senate.

Item 456b, Wailuku and Kahului Water Works, \$3,600. Your committee find that a necessary item for the maintenance of the Wailuku water works has been left out of the Appropriation Bill recommended by the Governor, and we therefore recommend that an item of \$3,600 be inserted in the Appropriation Bill for this purpose.

Item 457, Koloa Water Works, \$200. This item represents the running expenses of the Koloa water works for the coming biennial period. We urge its passage.

Item 458, Public Grounds, general, \$6,000. Your committee find that this item covers all expenses connected with the keeping of the public grounds in the Territory in good condition, with the exception of the pay roll. We recommend the item pass as in the bill.

Item 459, Honolulu Park Commission, \$12,000. This item is for repairing necessary to the keeping in good condition the Kapiolani Park grounds.

Items 461 and 462. We find upon thorough investigation that these items are a necessity for the protection of property in the city of Honolulu and the town of Hilo, and therefore recommend their passage.

Items 464 to 473, Roads and Bridges, Hawaii. We submit that these items have been carefully estimated by the Department of Public Works, after consultation with the chairmen of the several Road Boards, and find that in order to keep the roads in these districts in fair condition the amounts asked for should be appropriated, and therefore recommend that these items meet with your favorable consideration.

Items 475 to 479, Roads and Bridges, Maui. Your committee respectfully submits that these items for the different districts on Maui are necessary for the repairing of the roads and bridges in the different districts, and urge their passage as in the bill.

Item 479a, Lanai, \$600. We ask that the above item of \$600 for roads in Lanai be inserted in the Appropriation Bill, as the condition of the roads on that Island necessitates some action be taken by the government to put them in good condition, and we urge that the item be inserted.

Item 481, Roads and Bridges, Honolulu, \$500,000. We find upon consultation with the Superintendent of Public Works that this appropriation of \$500,000 will not be required for road purposes in the district of Honolulu for the coming biennial period, but a careful estimate has been made by him of the actual amount necessary for keeping the roads in good condition for the above period. The sum, therefore, of \$300,000 is hereby recommended, and we urge this item be changed accordingly.

Items 482 to 491. Your committee respectfully recommend that these items for repairing roads in the different districts of Oahu and Kauai be passed as in the bill. The necessity of good roads in the outlying districts of Oahu and Kauai being so apparent that we feel they will meet with favorable consideration at your hands.

Item 492, Roads and Bridges, general, \$10,000. This item being needed as an emergency appropriation, to be drawn upon in case the money otherwise appropriated should not be sufficient for the different districts, we therefore ask the item be passed as in the bill.

Item 494, Road Damages, all Islands, \$50,000. Your committee finds this is a very important item, used as it is for the repairing of roads in the different districts when damage has been caused by storms, washouts, bridges carried away or other disasters which could not be repaired from any other appropriation.

We submit, therefore, that the item be passed as in the bill.

Respectfully submitted,

WM. WHITE,
N. RUSSEL,
L. NAKAPAAHU.

June 13, 1901.

Except Item 481.

G. R. CARTER.

I concur all items with the exception of Item 481, Roads and Bridges, Honolulu, \$500,000. I believe the items ought to be divided as follows: Roads and Bridges, Fourth District, Honolulu, \$160,000; Roads and Bridges, Fifth District, Honolulu, \$140,000.

W. C. ACHI.

Senator J. Brown moved that the report be laid on the table to be taken up with the Appropriation Bill. Seconded by Senator Kanuha.

Senator C. Brown moved the adoption of the report. Seconded by Senator White.

Senator Achi moved to amend to the effect that that portion of the report with the exception of that part relating to Item 481 be adopted. Senator C. Brown accepted this amendment and the motion to adopt the report carried.

Senator Crabbe reported as follows for the special committee to whom had been referred certain items in the Appropriation Bill under the Police Department:

Your special committee to whom was referred the item of Pay of Police for the Island of Oahu, amounting as in the Appropriation Bill to the sum of one hundred and sixty thousand dollars (\$160,000.00), and have taken considerable interest in the matter, and have made thorough investigation thereof, knowing the importance of the service and the general misconception as to the manner in which the appropriation is apportioned in this service, particularly on this Island, by the heads of this bureau.

The feeling that discrimination and favoritism have been practiced dates away back into monarchical times. While we do not say this is correct, members of the Legislature have been appealed to by individual members of the police corps, and thus the matter of police pay is and has been taken up at each session of the Legislature, until now it is tacitly conceded that it is necessary for the good of the service that the Legislative power should take part, even in the apportionment of the pay of the police.

This idea we have endeavored to carry out without trespassing upon what may properly be deemed matters of detail, belonging especially to the chief of that bureau.

With this idea in view we called upon the High Sheriff, and with his assistance gathered statistics and other information in order to carry out what your committee deems its duty in this matter.

Your committee was furnished with a number of typewritten copies of the pay roll, from which the committee has been enabled to act intelligently, and upon which the committee has based its recommendations.

We find that nearly all the items in the pay roll are fairly adjusted and that the whole amount is absolutely necessary for the perfect working of this portion of the police service. All extraneous service has been dispensed with, and wherever possible improvements made tending to a complete organization without weakening the force.

In view of the change in our form of government and the large addition to our population in the past two years, the service will need all the money asked for, the same as in the last biennial period. This is all the more creditable to the heads of the police department, notwithstanding the larger amount of work, and shows a desire to economize.

We find, too, that the telegraph system recommended for use in this department will materially assist the force, and to a certain extent explain the reason why no larger appropriation is required than under ordinary circumstances.

To do away with all possible misconception as to the discrimination presumed to be practiced in the apportionment of the pay of police officers, we have deemed it advisable to recommend the passage of the item of one hundred and sixty thousand dollars (\$160,000) for pay of police of Oahu, and to insert the appended list in the bill.

TWENTY-SEVENTH DAY

Saturday, June 15th, 1901.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Baldwin, C. Brown, Carter, Crabbe, Kanuha and

TWENTY-EIGHTH DAY

Monday, June 17th, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Baldwin (excused), C. Brown, Carter, Paris, White, and Russel absent.

Senator Russel moved that the Senate go into executive session. Seconded by Senator Kalauokalani and carried.

EXECUTIVE SESSION.

Senator Russel then presented the following report of the Committee on Public Health and Education on a resolution relating to the rumor of the existence of bubonic plague in the city:

Your Committee on Public Health and Education, to whom a resolution, No. 14, was referred, begs leave to report as follows:

On May 29th, June 4th, and June 10th, there were altogether four cases of disease in Honolulu which, after a thorough investigation, we must pronounce to be very suspicious of bubonic plague. Two of them in Emma Hall yard, corner of Beretania and Nuuanu, and two others in the neighborhood of the Stock Yards, near King street. All four have ended in death, and those

of Emma Hall showed indications of contagiousness, since the second case was nursing the first. Three of the deceased were Chinese and the fourth a Japanese. A number of dead rats have been found in the neighborhood of both spots of infection, which also presented the symptoms of the same disease. Yesterday one sick rat was found in a third place, namely Iwilei, a fact indicating the possibility of the disease soon appearing in that quarter.

There is no doubt that this disease is the same as we had in 1899 and 1900. Whereas practically in both cases it must be taken for bubonic plague, certain peculiarities it presents, as well as somewhat desultory bacteriological investigation failing to give a positive proof, do not justify as yet to definitely state that it is such.

Anyhow, since in the course of two weeks there have been only four cases, and no cases for seven days since, the committee is satisfied that, in the interests of the community, it is better not to raise any alarm by publicity. There are chances that the disease will not spread further, or if it does it will be in the same way of a few isolated, distanced cases which gradually will be stamped out. The investigation into how the disease is treated by the Board of Health has convinced us that the most proper method is adopted; infected houses are properly disinfected, the healthy inmates are inspected every day for fifteen days, clothes of the deceased destroyed, bodies cremated, rats caught, killed and burnt, and all this in a quiet, businesslike way. Although U. S. Marine Hospital Service officers have, as it was their duty, reported facts to their headquarters on the mainland, those facts will not appear in print for a long time. The local press has agreed to avoid publication.

There is only one fact of first magnitude in connection with this subject that has impressed us greatly, and which will continue to remain in a source of danger if present, as well as in the future, to-wit: an extremely filthy and unhygienic condition of nearly all quarters of town occupied by the poor.

It is the highest time to provide sanitary laws for the condemnation of unsanitary buildings, for prevention of erection of dock buildings in the future, for most crying sanitary improvements of the town, etc.

This, however, cannot be made without a total reorganization of the whole system of the public health service, which we have totally failed to do at the last session. Since things cannot possibly remain in their present condition for a long time without greatly endangering the public welfare, we hope that individual members of the Legislature will give their thought and study to this subject in interval between sessions, and that at the next regu-

lar or extraordinary session all parties will unite in a decision of the urgent necessity of such reform.

We recommend, therefore, that the resolution be laid on the table.

N. RUSSEL,
J. B. KAOHI,
W. C. ACHI.

Harness Hangers, \$150.00.

Furniture and Sundries, \$300.00. Total \$3,950.

Pay Roll for above Two Years, \$11,400.00.

Rebuilding of Station No. 1 at South and Kawaiahao streets, \$20,000.00.

Establishment of a Hose Company on Nuuanu Avenue above Judd street Building, \$3,000.00.

Pay Roll and Equipments, \$9,650.00.

Fire Alarm System, 100 boxes, distributed throughout the city, \$20,000.00.

Establishment of Hose Company for Waikiki (this amount including buildings and pay roll), \$12,650.00.

Also Equipments, Material and Supplies, \$30,000.00.

This amount includes horse feed, harness (new), harness repairs, telephones, drugs and supplies, repairs of apparatus, 5,000 feet new hose, horses, two heaters, placing heaters, electric lighting and sundries.

Your Special Committee therefore recommend the passage of the foregoing items amounting to \$189,880.00 this being \$20,120.00 less than asked for by the Board of Fire Commissioners.

J. T. BROWN,
G. R. CARTER.

Senator White moved the adoption of the report. Seconded by Senator J. Brown and carried.

Senator Crabbe reported further for the same committee on other items in the Appropriation Bill as follows:

Your Special Committee to whom was referred items 218, 219, 220, 221, 222, 223 and 224, after careful consideration, beg leave to report as follows:

Item 219, Salary of Four Pilots, \$24,000. This is increased \$4,800. This, we think, is only just, as the Territory receives all of the fees from pilotage.

Item 220, Pay Roll Pilot Boats. We find that the amount called for in the Appropriation Bill is not enough for the

period. We therefore recommend that this amount be increased so as to read \$11,520. This allows the pilot boys \$1.00 each for day trips and \$2.00 each for night trips.

Item 221, Salary of two assistane harbor masters, one at \$150 and one at \$100 per month. The item will then read: Salary assistant harbor master, \$150; \$3,600.00.

Item 223, Salary pilot's watchman, Diamond Head, \$1,800. We recommend this item pass as in the bill.

Your committee would therefore ask that the items above referred to pass as recommended. These items amount to \$42,360.00, being only a small part of the revenue received by the Territory from this Department of the Government.

C. L. CRABBE,
G. R. CARTER,

THIRTY-SECOND DAY

Friday, June 21st, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Baldwin (excused), C. Brown, Carter, Kaohi and White absent.

The Journal of the Thirty-first Day was read and, on motion of Senator J. Brown, seconded by Senator Kaohi, approved as read.

Senator Paris reported as follows for the Public Lands Committee on various items in the Appropriation Bill:

Your Committee on Public Lands, to whom was referred Resolution 18 would report as follows:

Item 1, To appropriate \$15,000 to erect buildings and remove the present Reformatory School for Boys to the government land between Kahuku and Laie.

This has already been recommended by the Department of Education.

Your committee consider that this should be done as the present location is not sufficient land for an Industrial School, but your committee consider that this should be done out of loan funds and would recommend that it be inserted if a loan bill is passed.

Item 2, To appropriate \$10,000 for a girls Reformatory School where the present school for boys is now.

Your committee consider that an Industrial School for Girls without proper homes, is much needed; but does not consider the present Reformatory School the proper location, although it could be used until a better location could be obtained.

We would recommend that the item be inserted as the former one.

•

Item 3, Your committee find that most of the buildings of this institution are old and past repair. We have interviewed the Department of Education who estimate the cost at about \$40,000 to rebuild and equip the institution.

We would favor this item if the loan bill had been passed. We now recommend it be deferred and the appropriation of \$4,000 be increased to \$6,000.00.

Item 4, Extension of Vineyard street to Kamehameha School.

This item we considered by the appropriation for streets for that district.

Item 5, \$15,000 for Kalihi street from Kaiulani to Kilo-hana.

This we consider provided for by the \$15,000 already appropriated for Kalihi.

Item 7, To widen Pauoa road, \$10,000. This we recommend be inserted in the Appropriation Bill.

Item 6, Extension of School street to Kamehameha Fourth road, \$50,000.00.

We have interviewed the Superintendent of Public Works who estimates the cost at over \$75,000. We do not recommend this item at the present time.

Items 8 and 9, \$30,000 for King street and the roads in general about the Island. We consider this is covered by the general appropriations for roads in the districts and the road tax which is very large in several of these districts.

Item 9 is covered by the \$140,000 appropriated for streets.

Item 10, \$5,000 for all the streets at Kakaako.

We recommend that this amount be inserted for South street as the Bishop Estate has given a free right of way provided this street is extended within a certain time. There are no other government streets at Kakaako.

Item 11, \$5,000 for public Cemetery near Honolulu.

We would recommend this item be inserted in the appropriation bill and also an item of \$6,000 for care of cemeteries in general. As the cemetery at Makiki is being washed on one side, by the water from the hills and needs a concrete wall to protect the graves.

Senator C. Brown then presented the following report of the Special Committee to whom had been referred the matter of the claim of the Hawaiian Fertilizer Company:

Hon. S. E. Kaiue, President of the Senate:

Sir:—Your special committee to whom was referred the petition of the Hawaiian Fertilizer Company, Limited, praying to be reimbursed in the sum of \$1,936.38, being for a sum paid

for a merchandise license on June 27, 1900, beg to report as follows:

Upon inquiry at the Treasurer's office it was found that the sum of \$1,890.36 was paid by the Company as a license for carrying on its business, and the sum of \$38 was charged for stamps on such license, making the sum asked to be returned.

In the opinion of your committee there was no law and the Treasurer had no authority to collect or compel the payment of this license under the existing law. It was not collected previously nor had it been collected from a company which had been engaged in business for sometime prior to the petitioner. This Committee recognizes the fact that in recommending the refunding of this money they may be making a precedent for petitions of like character based upon grounds similar to the one upon which this is based; but we think the difference that existed between this and other cases where a license had been exacted and paid can be easily explained. The present case was the exacting of a sum of money for a license upon merchandise manufactured within the limits of this Territory, while the other class of cases were upon imported goods and merchandise caused by the change to our present conditions.

We recommend that the item be inserted in the Appropriation Bill, and in so doing, disclaim the idea of making this a precedent for the return of money paid for a license by mistake or unauthorized by law.

Respectfully submitted,

CECIL BROWN,
D. KALAUOKALANI.
CLARANCE L. CRABBE.

The Clerk then read the following communication from the Superintendent of Public Works:

I have the honor to inform you that the Territorial Board of Health has made a request on this department that a ditch be built in the Kewalo district for the carrying away of foul and filthy water that overflows that district at the present time.

The present condition of said ditch is as follows:

"The district makai of King St. and the Catholic Cemetery, Ewa of Mrs. Ward's (the Old Plantation), mauka of Clayton St. and Waikiki of the lane from King St. leading to the Hoomananaauao Church, consists of six large abandoned fish ponds and a large number of smaller ones, all in filthy condition, fed by springs and flowing into Peck's ditches. Just makai of these ponds, at the end of Clayton street, next to Mr. Ward's, is Peck's place. An artesian well flushing the wash houses flows into two foul ditches, thence to the big pond which is Waikiki of what used to be Cyclomere and next to Mrs. Ward's line extending down to Waimanu St.

The rear portion of Mrs. Ward's property down to Waimanu St. used to be fish ponds all connecting to the sea by a ditch which is fed by an artesian well. These ponds, with the exception of three, are abandoned.

When Desky opened Kewalo for settlement he dug a ditch from the pond on Peck's place along Waimanu St. to Mrs. Ward's ditch, and drained all the above described property. A law suit ensued, as the foul water drove away the fish, and the connecting

ditch was torn out and a box drain was laid from Peck's pond along Ward street to Kawaiahao street, and along Kawaiahao nearly to Cooke street, and from this point was dug connecting to the old cement Kakaako ditch, and a dyke wall was built between Mrs. Ward's and Peck's.

The result was that as the Kakaako ditch, at the point of juncture with Peck's ditch, was too high, the water in Peck's ditch rose and backed up all along the line into the pond, and as it must necessarily go somewhere, it overflowed its banks and at present Ward avenue from end to end is a big pond with no footing for pedestrians, and a carriage driven through the other day sank to the body of the same in water and mud. The other streets likewise are flooded. Laniwai street is also impassable, and the people climb their back fences to go to their homes.

Queen street, for over 600 feet, is flooded from side to side, and Kawaiahao is flooded for some distance, and the ditch stands stagnant, six feet wide and three feet deep, nearly to south street, and back up Cooke street for some distance. There are quite a number of separate ponds fed by this foul water, and many yards are afloat.

The result of all this is that as only a small part of the water flows into the Kakaako ditch, it must either evaporate or seep into the ground. This latter process fills all vaults and cesspools and causes them to overflow into the streets, and naturally no rubbish can be gathered up or burned, and every rain has made matters worse, until now the stench from the stagnant water is nauseating. It is easily seen that in case of a case of typhoid or other such disease breaking out in one place it will be impossible to prevent the spreading of the disease until some radical measures are taken immediately to remedy the present condition of things."

Upon the above showing the sanitary condition of said district is most deplorable, and some action must be immediately taken in order to relieve this grave and serious condition of affairs. If typhoid fever should develop in that locality it would endanger the lives of over three thousand people, and should it become epidemic it would also seriously affect the adjoining territory, and to stamp it out would cost the government much more money than what is needed to build this ditch.

There being no appropriation for this disposition of this department for this purpose and in case of this nature the public looks to the Legislature for relief. I would therefore urge the importance of an appropriation of \$25,000 being made as an Emergency Act, and in case this cannot be done to have the amount inserted in the Appropriation Bill.

By making this provision your honorable body would avert

a threatened and serious danger to the residents of that locality.

Very respectfully,

JAS. H. BOYD,

Superintendent of Public Works.

Senator Kanuha introduced the following resolution :

H. J. R. No. 1.

Whereas the recent visitation of plague at the port of Honolulu, made necessary the prompt enforcement of extreme measures by the local Board of Health in suppressing the same, and

Whereas owing to our isolation and the means at hand the enforcement of such measures caused great suffering and loss to a large number of private individuals, more especially by the destruction of buildings and personal property, and,

Whereas a Court duly authorized by the First Legislature of this Territory, is now sitting and adjudicating the claims of those who suffered loss in consequence of such action, and

Whereas owing to the fact that the Postal and Customs receipts of these Islands are now paid to the Federal Government, there are no funds in the Treasury of the Territory with which to pay such claims, therefore

Be it resolved by the Legislature of the Territory of Hawaii, that the Federal Government be urged to assist the Territory in the liquidation of such claims,

Be it further resolved that copies of this Joint Resolution be forwarded by the Secretary of the Territory to the President of the United States, the President of the Senate, the Speaker of the House of Representatives, and the Delegate of the Territory of Hawaii, with the request that the subject matter be laid before Congress for such action as may be deemed desirable.

FORTY-EIGHTH DAY

Thursday, July 18th, 1901.

The Senate met, pursuant to adjournment, at 10 o'clock.

After prayer by the Chaplain, the roll was called, showing Senators Achi, Baldwin, J. Brown, Carter, Crabbe, Kaohi and Russel (excused), absent.

The Journal of the Forty-seventh Day was read and, on motion of Senator Nakapaahu, seconded by Senator Kahilina, approved as read.

The Clerk read the following communication from the Acting Governor

Honolulu, July 18th, 1901.

Hon. S. E. Kaiue, President of the Senate.

Sir:—I have the honor to inform you that I have this day signed Act 3, entitled "An Act making special appropriations for salaries and pay rolls during the two years which will end with the Thirtieth Day of June, A. D. 1903."

I have the honor to be, sir, very respectfully yours,

[Signed] HENRY E. COOPER,
Acting Governor.

Honolulu, July 18th, 1901.

Hon. S. E. Kaiue, President of the Senate.

Sir:—I have the honor to inform you that I have this day signed Act 4, entitled "An Act making special appropria-

tions for the departmental use of the Territory during the two years which will end with the 30th day of June, A. D. 1903," with the exception of the item "For the purchase of land for a site for a hospital for Incurables, \$20,000.00" which I do not approve. The reasons for my disapproval will be found in a message upon this subject.

I have the honor to be, sir, very respectfully yours,

[Signed] HENRY E. COOPER,

Acting Governor.

A MESSAGE TO THE LEGISLATURE OF THE TERRITORY OF HAWAII.

I am unable to approve of the item "For the purchase of land for a site for a hospital for Incurables, \$20,000" inserted in Act 4, entitled "An Act making special appropriations for the departmental use of the Territory during the two years which will end with the 30th day of June, A. D. 1903."

My reasons for disapproval of this item, although I approve of the object sought to be obtained by the Legislature, are that the clause incident to such item reading: "Such transfer and conveyance of public land is hereby authorized without further consideration, upon condition that whenever such parcel of land shall cease to be used for such purpose for three consecutive years the same shall revert to the Government," is practically a grant of land without consideration, which is contrary to the Land Laws of the country.

Section 73 of the Organic Act provides "that the laws of Hawaii relating to public lands and settlement of boundaries, and the issuance of patents on land commission awards, except as changed by this Act, shall continue in force, until Congress shall otherwise provide. "It is not therefore in the power of the Legislature to change the existing laws governing the disposition of public lands, consequently I believe this item is without lawful authority.

I return herewith the Act above referred to for your reconsideration upon this item.

[Signed] HENRY E. COOPER,

Acting Governor.

Executive Chamber, July 18th, 1901.

A MESSAGE TO THE LEGISLATURE OF THE TERRITORY OF HAWAII.

A consideration of Act 4, entitled "An Act making special appropriations for the departmental use of the Territory during the two years which will end with the 30th day of June, A. D. 1903," fails to show items for the payment of unpaid bills submitted by the message of June 7th, with the exception of the bills incurred on account of bubonic plague and unpaid bills of the Board of Health.

I therefore submit for your consideration "Estimates for the payment of unpaid bills," with the recommendation that they be inserted in an appropriation bill to be paid from current receipts;

I also recommend the insertion of the items contained in the "Estimates of Appropriation, Current Receipts, which appears to be necessary for the proper conduct of the affairs of the respective departments.

I also recommend further appropriation so as to enable the Fire Claims Commission to continue its labors for such time as it may seem necessary to reach a satisfactory conclusion;

I also recommend the passage of an appropriation bill making special appropriations for the use of the Territory during the succeeding biennial period out of any moneys which may be received by the Treasury from the Loan authorized by Act 71 of the Session Laws of 1896. The unissued bonds authorized by said Act amount to \$799,000.00.

I submit the following estimates for your consideration.

Acting Governor.
